Part B - Program Level Criteria

1 VISION, MISSION & PROGRAM EDUCATIONAL OBJECTIVES (50)

Total Marks

1.1 State the Vision and Mission of the Department and Institute (5)

Total Mar

Institute

4.

Vision of the institute	To create professionally competent leaders for the industry with social commitment.	
Mission of the institute	M1: To instill human values and leadership qualities for holistic development of students. M2: To develop analytical skills and capacity in students to achieve leading position in Business organizations. M3: To Enrich students with practical business management knowledge by providing industrial corporate exposure to develop entrepreneur spirit. M4: To inculcate innovative sustainable solution to accomplish the dynamic, socio-economic needs through research.	
Vision of the Department	To empower future managers, entrepreneurs, and techno leaders to excel in the knowledge economy and shape the future of our society.	
Mission of the Department	Mission No.	Mission Statements
	M1	To prepare students for leadership and management roles in various organizations and foster critical thinking and decision-making skills.
	M2	Empowering students to develop strong analytical and decision making skills, enabling them to achieve leadership roles in business organizations.
	M3	To enhance student development through comprehensive industrial and corporate exposure, cultivate an entrepreneurial mindset, and prepare graduates for distinguished careers in business domain.
	M4	To cultivate sustainable research capabilities in students, empowering them to develop innovative solutions and excel in leadership roles within business organizations.

1.2 PEOs statements (5)

Total Mar

Institute

3.

PEO No.	Program Educational Objectives Statements
PEO1	To develop the ability to acquire knowledge and apply it professionally in an ethical manner.
PEO2	To identify and analyze business problems with hands-on experience using modern tools and techniques in a specific domain area, and to provide solution in a holistic manner.
PEO3	To equip the students to design and simulate experiments in order to optimize their technical and contemporary learning, making them industry-ready managers.
PEO4	To provide individuals with the professional and entrepreneurial skills necessary for enhancing career prospects and comprehensive development within specialized field, employing a multidisciplinary approach.
PEO5	To establish a superior academic learning environment for students and to cultivate awareness of ethical and professional codes of conduct, while foster lifelong learning and societal commitment.

1.3 Dissemination among stakeholders (10)

Total Mar

1. SSCMR makes sure that the Vision and Mission statements are effectively distributed to all parties involved. According to the Institute, Vision and Mission will be effectively disseminated if it is
 - a. Owned by the management and leadership
 - b. Internalized by the staff and students
 - c. Recognized and communicated to the appropriate authorities, recruiters, and the broader ecosystem
2. All internal and external stakeholders are educated about the mission and vision statements, including members of the College Development Committee (CDC) and Governing Council (GC), staff, students, parents/guardians and recruiters.
3. The Vision and Mission statements are prominently featured on the institute website (<https://www.swayamsiddhi.org/about/vision>), (<http://www.swayamsiddhi.org/about/vision>) which is often the first point of interaction with various stakeholders.
4. The Vision and Mission statements can be found in multiple locations around the campus, including classrooms, the Library, computer labs, the seminar hall, the foyer, corridors, the Director's Office, the conference room and the offices of all teaching and non-teaching staff members.
5. The Vision and Mission statements are communicated to both internal and external stakeholders through the Institute Prospectus, event/placement brochures, and policy manuals.
6. The institution Vision and Mission statements are communicated to distinguished guests and dignitaries from industry and academia, including authors, researchers, social leaders, international visitors, and senior university and government officials who attend various events such as Seminars, Research Conferences, guest sessions, and other similar gatherings.
7. Faculty members have internalized the Vision and Mission, which is evident in their course outcomes and session plans.
8. The Vision and Mission statements are shared with students from the outset, starting with Orientation sessions, and are integrated into all curricular activities.
9. The diverse range of co-curricular, extra-curricular activities, and value-added courses offered to students are also guided by the institute Vision and Mission philosophy.
10. During the MMS degree distribution ceremony, the Vision and Mission are reaffirmed, and graduates are encouraged to uphold these principles in their professional and social lives as alumni of the institution.
11. Parents and guardians of students are informed about the institute Vision and Mission from the time of admission to the completion of the programme, and these guiding principles are referenced during interactions with parents and guardians to address various issues throughout the programme.

In summary, the institution makes a deliberate effort to not only disseminate but also incorporate the principles of the Vision and Mission into its daily operations.

Table 1.3 Dissemination to Stakeholders

Dissemination to Stakeholders			
Employees – Teaching & Non Teaching	Students and Parents	Corporate Partners / Recruiters / Governing Authorities	General Ecosystem
- Induction of the Employee - Through the display of the Vision and Mission at all prominent locations in the institute - Internal Faculty Meetings	- Website - Orientation Session - Display of Vision & Mission in Classrooms, Library, Lab corridor, Offices of Teaching & Non teaching members - Conferences, Seminars and Events on campus - Degree Distribution Ceremony	- Website - Placement Brochure - Event Brochure - Publications of the Institute - Invitations and Memorabilia - Standees, Banners and other display materials during the events	- Website - Through the display of the Vision and Mission at all prominent locations in the institute - Advertisements and all other promotional communication

1.4 Formulation process (15)

Total Mark:

Swayam Siddhi College of Management & Research (SSCMR) is formed in the year 2006 under the aegis of Swayam Siddhi Mitra Sangh's, a registered educational trust established in 1988. With the objectives of promoting educational, charitable, and social activities, the trust has been a pioneer in providing educational opportunities to diverse sections of society. Over the past two decades, the trust has played a vital role in promoting and providing quality education from primary to post-graduation levels in fields such as Commerce, Management, & Information Technology. SSCMR aims to bring about positive change in society through educational excellence, as reflected in the institute's Vision and Mission statement.

The Vision and Mission statement of the institute is formulated after careful consideration of the University of Mumbai's Vision and Mission, as well as the founding Vision and Mission of our trust. The statement was initially drafted and then deliberated upon in internal faculty meetings, incorporating suggestions from senior academicians and industry practitioners. The statement was subsequently approved by the Internal Quality Assurance Cell (IQAC), College Development Committee (CDC), and Governing Council (GC) members.

SSCMR embarked on its accreditation journey in 2017, during which the IQAC, CDC, and GC revisited and validated the Vision and Mission statements. The IQAC periodically reviews and evaluates the Vision and Mission statements to ensure they remain relevant as guiding principles for the institute. Furthermore, the External Audit team conducts regular audits to assess the institute's functioning in alignment with its Vision and Mission.

The Program Educational Objectives (PEOs) were formulated in 2021 by a committee comprising the director, senior faculty members, select alumni, and corporate partners. The PEOs were aligned with the Vision and Mission statement and are based on the following Graduate Attributes.

Table 1.4 Graduate Attributes

S. No	Graduate Attributes
I	Managerial Knowledge
II	Problem Analysis
III	Design and Development of solutions
IV	Investigation of complex problems
V	Modern Tools Usage
VI	Manager and society
VII	Environment & Sustainability
VIII	Ethics
IX	Individual & Team work
X	Communication
XI	Lifelong Learning
XII	Project Management & Finance

1.5 Consistency of PEOs with the mission (15)

Total Mark

Mission of the institute

M1: To instill human values and leadership qualities for holistic development of students.

M2: To develop analytical skills and capacity in students to achieve leading position in Business organizations.

M3: To Enrich students with practical business management knowledge by providing industrial corporate exposure to develop entrepreneur spirit.

M4: To inculcate innovative sustainable solution to accomplish the dynamic, socio-economic needs through research.

The Programme Educational Objectives (PEOs) have been formulated in alignment with the institutional strengths, industry requirements, and the holistic development of learners. Considering the rapid pace and increasing dive the corporate environment, the programme emphasizes the development of a broad range of managerial competencies.

The MMS programme offered by SSCMR is designed to be robust, contemporary, industry-driven, and practice-oriented, ensuring relevance to current business practices and meeting the expectations of both Indian organization multinational corporations. The two-year programme is structured to equip graduates with the knowledge, skills, and professional attributes required for effective managerial performance.

To ensure strategic alignment and outcome effectiveness, the PEOs have been mapped with the institutional Mission. This mapping facilitates the evaluation of the degree of correlation between each PEO and the Mission stater thereby strengthening the attainment of enhanced learning outcomes. The following table presents the PEO–Mission mapping along with the rationale justifying the identified correlations.

Note: M1, M2, M3 are distinct elements of Mission statement. The correlation levels are defined as: 1: Low, 2: Medium, 3: High

Mission	PEO	Corr.	Justification
M1: To instill human values and leadership qualities for holistic development of students.	PEO1: To develop the ability to acquire knowledge and apply it professionally in an ethical manner.	2	Community engagement & service learning activities are conducted by the Institute to sensitize students about the values and ethics. Industry interaction programs (guest lectures, internships, live projects) are organized to acquire knowledge and apply it professionally in an ethical manner. Regular mentor-mentee interactions. Celebrating days like International Women's Day, organising Blood Donation Camp etc.
M1: To instill human values and leadership qualities for holistic development of students.	PEO2: To identify and analyze business problems with hands-on experience using modern tools and techniques in a specific domain area, and to provide solutions in a holistic manner.	2	Students are provided with add on courses on Soft-skills & personality development. They are also provided with advanced certifications like Business Analytics, Digital Marketing and Financial Modelling. Adopting case study method of instruction. Organising Business Quiz, business idea competition etc.
M1: To instill human values and leadership qualities for holistic development of students.	PEO3: To equip the students to design and simulate experiments in order to optimize their technical and contemporary learning, making them industry-ready managers.	2	Institute organizes community services, Industry visits, guest lectures, and alumni interactions. Visits to various fairs, expo-exhibitions etc. Organizing PPT competitions for developing business plans.
M1: To instill human values and leadership qualities for holistic development of students.	PEO4: To provide individuals with the professional and entrepreneurial skills necessary for enhancing career prospects and comprehensive development within a specialized field, employing a multidisciplinary approach.	2	Institute conducts business plan competitions, Case-based learning, and real-world problem solving activities. Students are also provided with Skill development programs (communication, analytics, digital tools). Local visits to industry to encourage students for start- ups.
M1: To instill human values and leadership qualities for holistic development of students.	PEO5: To establish a superior academic learning environment for students and to cultivate awareness of ethical and professional codes of conduct, while fostering a lifelong learning and societal commitment.	3	Ethics case-study discussions are integrated into core courses. Code of conduct orientation and ethics pledge for students is conducted. Community engagement: Social outreach, rural/urban development projects, etc.
M2: To develop analytical skills and capacity in students to achieve leading position in Business organizations.	PEO1: To develop the ability to acquire knowledge and apply it professionally in an ethical manner.	3	Skill development courses and workshops are done for students. Eg. Excel, Power BI, Digital Marketing. Interaction with industry people to give exposure to knowledge application.

M2: To develop analytical skills and capacity in students to achieve leading position in Business organizations.	PEO2: To identify and analyze business problems with hands-on experience using modern tools and techniques in a specific domain area, and to provide solutions in a holistic manner.	3	Short-term certifications are provided to students like • Business Analytics • Digital Marketing • Financial Modeling Summer Internship Project. Case study-based teaching in every subject. Short term courses on SPSS, advanced Excel.
M2: To develop analytical skills and capacity in students to achieve leading position in Business organizations.	PEO3: To equip the students to design and simulate experiments in order to optimize their technical and contemporary learning, making them industry-ready managers.	3	Training on Case Study and its Analysis is conducted for the students. Quantitative techniques & Business Analytics are taught in relevant subjects.
M2: To develop analytical skills and capacity in students to achieve leading position in Business organizations.	PEO4: To provide individuals with the professional and entrepreneurial skills necessary for enhancing career prospects and comprehensive development within a specialized field, employing a multidisciplinary approach.	3	Students are provided with Mentoring, career guidance, and placement training. Even activities related to Entrepreneurship Development Programs (EDP) & Institution Innovation Cell (IIC) activities are conducted frequently.
M2: To develop analytical skills and capacity in students to achieve leading position in Business organizations.	PEO5: To establish a superior academic learning environment for students and to cultivate awareness of ethical and professional codes of conduct, while fostering a lifelong learning and societal commitment.	2	HR conclave, debates, management games, and strategy competitions to build leadership capacity. Exposure of students to social work like blood donation.
M3: To Enrich students with practical business management knowledge by providing industrial corporate exposure to develop entrepreneur spirit.	PEO1: To develop the ability to acquire knowledge and apply it professionally in an ethical manner.	2	Frequent Expert talks, industry visits, MoUs, IIC activities and live industry projects are provided to the students.
M3: To Enrich students with practical business management knowledge by providing industrial corporate exposure to develop entrepreneur spirit.	PEO2: To identify and analyze business problems with hands-on experience using modern tools and techniques in a specific domain area, and to provide solutions in a holistic manner.	3	Invited guest lectures from industry experts and entrepreneurs to share practical insights. Summer Internship Projects.
M3: To Enrich students with practical business management knowledge by providing industrial corporate exposure to develop entrepreneur spirit.	PEO3: To equip the students to design and simulate experiments in order to optimize their technical and contemporary learning, making them industry-ready managers.	2	Case study analysis using real corporate data and contemporary issues by entrepreneurs and industry expert. Case study analysis using real corporate data and contemporary issues are discussed with the students.
M3: To Enrich students with practical business management knowledge by providing industrial corporate exposure to develop entrepreneur spirit.	PEO4: To provide individuals with the professional and entrepreneurial skills necessary for enhancing career prospects and comprehensive development within a specialized field, employing a multidisciplinary approach.	3	Institute facilitates industry internships, live projects, and expert guest lectures and also students are provided with Entrepreneurship Development Programs (EDP) & Institution Innovation Cell (IIC) activities.
M3: To Enrich students with practical business management knowledge by providing industrial corporate exposure to develop entrepreneur spirit.	PEO5: To establish a superior academic learning environment for students and to cultivate awareness of ethical and professional codes of conduct, while fostering a lifelong learning and societal commitment.	2	Industry internships, live projects, and corporate mentoring programs are arranged for students. Multiple industrial visits, executive talk series and also Community engagement programs are conducted by the Institute.
M4: To inculcate innovative sustainable solution to accomplish the dynamic, socio-economic needs through research.	PEO1: To develop the ability to acquire knowledge and apply it professionally in an ethical manner.	2	Students are motivated to write research papers jointly with faculty members and also their papers are published in sustainability, economics, and social impact journals.
M4: To inculcate innovative sustainable solution to accomplish the dynamic, socio-economic needs through research.	PEO2: To identify and analyze business problems with hands-on experience using modern tools and techniques in a specific domain area, and to provide solutions in a holistic manner.	2	Promoted field studies and community projects to identify challenges and implement sustainable solutions. Conducted seminars/webinars with industry experts sharing practical insights to students.

M4: To inculcate innovative sustainable solution to accomplish the dynamic, socio-economic needs through research.	PEO3: To equip the students to design and simulate experiments in order to optimize their technical and contemporary learning, making them industry-ready managers.	2	Case-based learning, live projects, and business games are conducted frequently for the students. Students are included in various committees and take their participation in programme planning and execution.
M4: To inculcate innovative sustainable solution to accomplish the dynamic, socio-economic needs through research.	PEO4: To provide individuals with the professional and entrepreneurial skills necessary for enhancing career prospects and comprehensive development within a specialized field, employing a multidisciplinary approach.	2	Case-based learning, and real-world problem solving. Case study based workshop is conducted for the faculty members and accordingly the same is percolated to the students. Students are also motivated to write research papers on different domains and present them in seminars or conferences.
M4: To inculcate innovative sustainable solution to accomplish the dynamic, socio-economic needs through research.	PEO5: To establish a superior academic learning environment for students and to cultivate awareness of ethical and professional codes of conduct, while fostering a lifelong learning and societal commitment.	2	Skill Enhancement & Certification Courses beyond curriculum (data tools, sustainability standards, ethics compliance).

2 GOVERNANCE, LEADERSHIP & FINANCIAL RESOURCES (100)

Total Marks

2.1.1 Governance Structure and Policies (30)

Total Mark:

Governance and Leadership

Swayam Siddhi Mitra Sangh's College of Management and Research is governed by a well-defined organizational structure that ensures effective leadership, partici decision-making, transparency, and accountability in academic and administrative processes. The institution functions in alignment with the vision and mission of the management, focusing on academic excellence, industry relevance, ethical practices, and continuous quality improvement.

Governance Structure

The institution operates under the guidance of **Swayam Siddhi Mitra Sangh**, which provides strategic direction, policy formulation, and overall governance. The **Governing Body / College Development Committee (CDC)** comprises experienced academicians, administrators, and professionals who actively contribute to institutional planning, monitoring, and development.

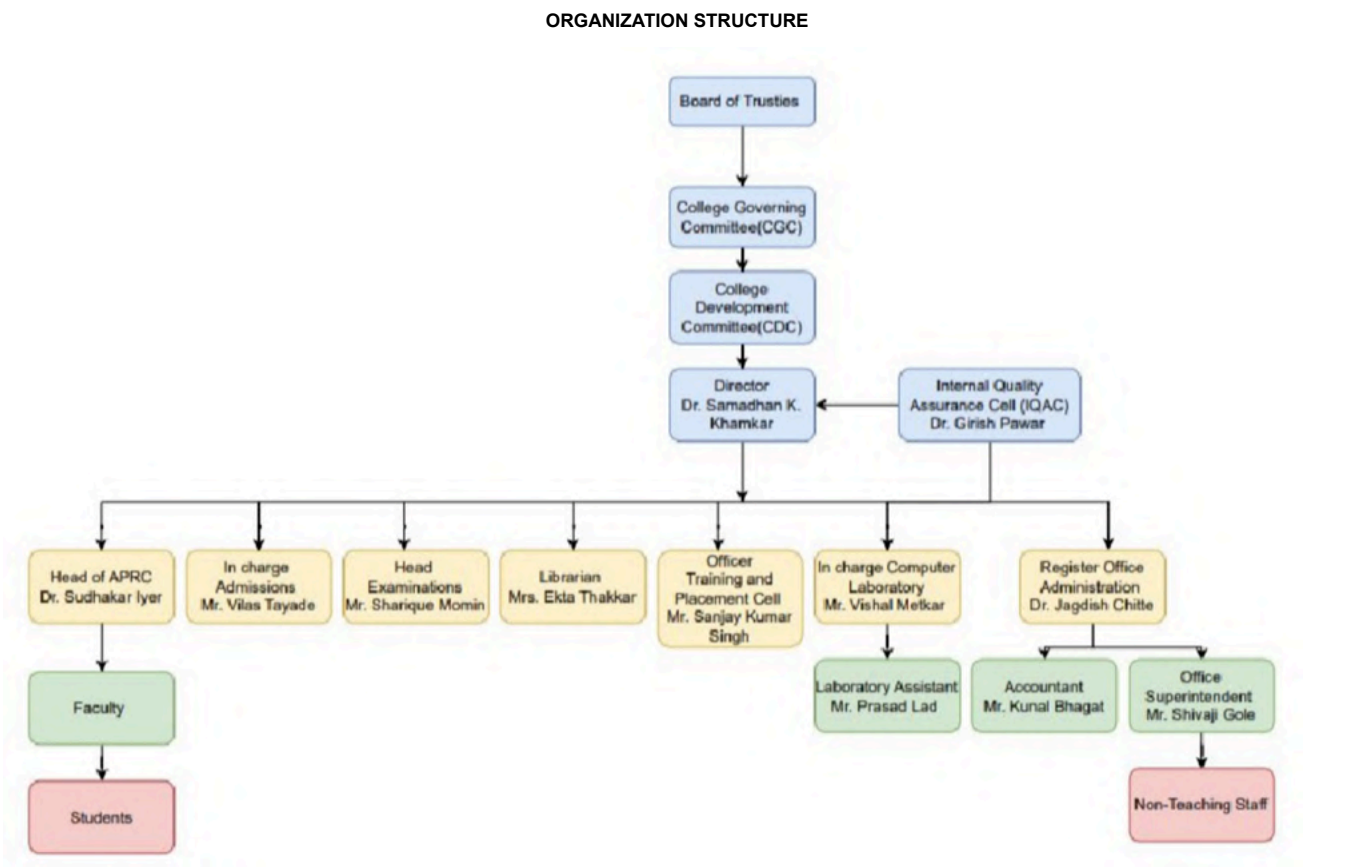

Figure 2.1 Organization Structure

The **Director** serves as the academic and administrative head of the institution and plays a pivotal role in implementing policies, ensuring regulatory compliance, and fostering a culture of academic rigor and innovation. The Principal is supported by **Heads of Departments, IQAC, and various statutory and non-statutory committees**.

The Governing Council

The Governing Council consists of a diverse group of distinguished members, including representatives of the Trust, faculty members, nominees of the State Govers and AICTE, and eminent education experts. This apex body provides strategic direction to the Institute and ensures effective governance through periodic performar evaluation.

The members of the Governing Council are appointed for a tenure of three years, and the Council meets at least twice a year to review institutional performance, mc academic and administrative functioning, and guide policy implementation.

The key responsibilities of the Governing Council include:

- Ensuring and promoting a high-quality education system within the Institute.
- Framing strategic policies and decisions in the best interest of all stakeholders.
 - Monitoring, supervising, and evaluating the effective conduct of the Institute's academic activities.
 - Reviewing institutional performance and recommending appropriate measures for continuous improvement.
- Providing academic guidance to ensure the delivery of holistic and quality education.

College Governing Council

Table 2.1 Members of the Governing Council

Sr. No	Name	Designation
1	Mr. Parag G. Khandekar	Chairman
2	Mr. R. P. Khandekar	Managing Trustee
3	Mr. Tejas Parag Khandekar	Trustee Member
4	Mr. Prakash R. Patil	Director- Corporate Relation, Sinhagad Tech Education Society
5	Dr. Rajeev Khedkar	Secretary, Bhagwan Charitable Trust.
6	Mr. J. K. Tripathi	Director Finance, Ajanta Pharma
7	Mr. Sunder Naik	NGO Representative
8	Mr. Krishna Parad	University Representative, University of Mumbai.
9	Mr. Suyog Kawle	Head –Finance, ITC
10	Regional Officer, All India Council of Technical Education (AICTE), Mumbai.	Ex-Official
11	Registrar, University of Mumbai, Mumbai.	Ex-Official

12	Director – Directorate of Technical Education (DTE), Government of Maharashtra, Maharashtra.	Ex-Official
13	Dr. Samadhan Khamkar	Director Swayam Siddhi College of Management and Research, Bhiwandi.

The College Development Committee (CDC)

The College Development Committee (CDC) is a statutory body constituted to support effective governance, academic planning, and institutional development. The promotes participative management and ensures transparency in academic and administrative functioning.

Roles and Responsibilities

- Recommends plans for academic, infrastructural, and institutional development.
- Reviews and approves the annual budget and monitors financial utilization.
- Formulates and reviews institutional policies in alignment with the vision and mission.
 - Monitors academic and administrative performance and supports quality assurance initiatives.
- Facilitates stakeholder participation and ensures regulatory compliance.

9	Dr Apeksha Gaje	Teacher in the college or recognized institution
10	Dr. Meetesh Choudhari	Teacher in the college or recognized institution

11	Dr. Girish Pawar	IQAC Co-ordinator
12	Mr. Sagar Bhanushali	Non-Teaching Employee elected by regular non-teaching staff from amongst themselves
13	Student Representative	President of the Students Council
14	Student Representative	Secretary of the Students Council

The Internal Quality Assurance Cell (IQAC)

The Internal Quality Assurance Cell (IQAC) is constituted to ensure continuous improvement in academic and administrative performance and to institutionalize quality assurance practices.

Roles and Responsibilities

- Develops and implements quality benchmarks for academic and administrative activities.
- Facilitates adoption of best practices in teaching–learning, evaluation, and governance.
 - Monitors academic performance and promotes outcome-based education and quality enhancement initiatives.
- Collects, analyzes, and utilizes stakeholder feedback for continuous improvement.
 - Ensures compliance with quality standards prescribed by regulatory and accreditation bodies.

Leadership at Institutional and Departmental Level

Leadership is decentralized and participative, promoting collective responsibility and empowerment at all levels.

- The **Director** provides academic leadership, facilitates strategic planning, and ensures effective implementation of outcome-based education (OBE) & statutory body guide
- **Heads of Departments (HoDs)** are responsible for curriculum delivery, attainment of course outcomes (COs) and program outcomes (POs), faculty coordination, and continuous monitoring of academic & Co-curricular activities.
- **Faculty members** actively participate in academic planning, assessment design, mentoring, research, consultancy, and extension activities.

Participative Management and Decision-Making

The institution follows a **participative management approach**, involving stakeholders such as faculty members, students, alumni, industry experts, and parents.

Key committees contributing to governance include:

- Internal Quality Assurance Cell (IQAC)
- Academic Committee
- Examination Committee
- Research and Development Committee
- Training and Placement Cell
- Industry Interaction Cell
- Grievance Redressal Committee
- Anti-Ragging Committee
- Women Development / Internal Complaints Committee

Regular meetings of these committees ensure systematic planning, implementation, review, and improvement of academic and administrative processes.

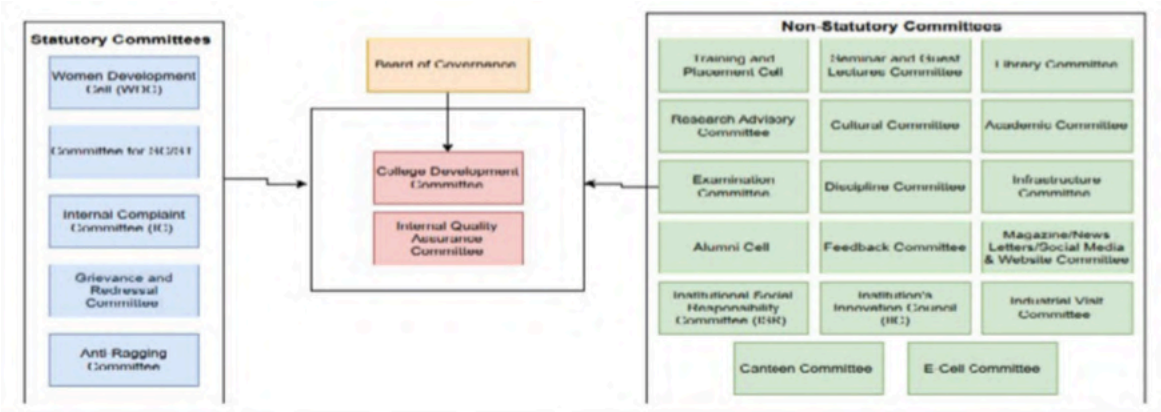

Figure 2.1.1 Committees Contributing To Governance

2.1.1.2. Service Rules (10)

Institute
8.

The Institute has clearly defined **Service Rules** for faculty and staff to ensure transparency, fairness, and effective governance. These rules are framed in accordance with the guidelines of the **State Government, affiliating University (University of Mumbai), AICTE, and the Management**, and are communicated to all employees at the time of appointment.

The Service Rules cover recruitment procedures, qualifications, roles and responsibilities, workload norms, appraisal and performance evaluation, promotion and career advancement, leave rules, code of conduct, disciplinary procedures, and grievance redressal mechanisms. Faculty appointments and service conditions are strictly as per prescribed norms to maintain academic quality and compliance with regulatory requirements.

The institute has rules relating to Holidays, Work Time, Workdays, Salary, Performance Appraisal, Recruitment & Selection Process, Leave Rules, TA/DA rules, Consultancy and other general rules. The institute has taken the best step forward in designing these rules in complete fairness in order to ensure equality and fairness.

All policies, regulations, and guidelines prescribed by the competent authorities are detailed in the HR Policy, which are:

- Accessible on the Institute's website.
- Available in the Institute's office for employee reference at any time.
- Referenced in the appointment letters provided to all employees and shared with them upon joining.

2.1.1.3. Policies (5)

Institute
4.

The Institute has established well-defined and documented policies to ensure effective faculty management, academic excellence, and quality assurance. These policies are formulated in accordance with the norms of the **AICTE, affiliating University (University of Mumbai), State Government, and the Management.**

Key policies are as follows :

1. **Recruitment and Selection (HR) Policy** – ensures appointment of qualified and competent faculty as per prescribed norms.
2. **Faculty Development Policy Manual** – encourages participation in FDPs, workshops, certifications, research, and higher studies for up gradation of faculties.
3. **Performance Appraisal Policy** – facilitates periodic evaluation of faculty performance for continuous improvement.
4. **General Rules and Regulations for Students (Code of Conduct) Policy** – ensures professionalism, discipline, and ethical practices.
5. **Examination Policy** - The Examination Policy ensures a transparent, fair, and timely evaluation process in accordance with University of Mumbai and regulatory guidelines. It defines procedures internal assessment, end-semester examinations, evaluation, result declaration, and grievance redressal to maintain academic integrity.
6. **Anti - Ragging Policy** - The Anti-Ragging Policy ensures a safe and inclusive campus environment in compliance with AICTE & UGC and statutory regulations. It strictly prohibits ragging in any and outlines preventive measures, awareness programs, and disciplinary actions.
7. **E-Governance Policy**- The E-Governance Policy promotes the use of ICT tools for efficient academic and administrative processes. It supports digital platforms for admissions, examinations, final communication, and record management to enhance transparency and efficiency.
8. **Research Policy** - The Research Policy encourages faculty and students to engage in quality research and innovation. It provides guidelines for research ethics, publications, collaborations, funding intellectual property, fostering a research-oriented academic culture.
9. **Library Policy** - The Library Policy ensures systematic acquisition, organization, and effective utilization of learning resources. It supports access to print and digital resources, e-journals, and data to enhance teaching-learning and research activities.
10. **Placement Policy** - The Placement Policy facilitates structured training, career guidance, and placement support for students. It promotes industry interaction, internships, employability skills development and fair placement processes.
11. **Green Initiative Policy** - The Green Initiative Policy promotes environmental sustainability through eco-friendly practices such as paperless administration, energy conservation, waste management awareness programs, fostering environmental responsibility.
12. **Maintenance Policy** - The Maintenance Policy ensures regular upkeep and optimal functioning of physical infrastructure, laboratories, equipment, and learning resources. It supports a safe, clean, and conducive academic environment.

The effective implementation of these policies contributes to faculty motivation, competence enhancement, and successful attainment of program objectives of the MMS program.

2.1.1.4. Strategic Plan (5)

Institute

4.

The strategic plan provides a comprehensive road map that will lead the Institute in a right direction. It is based on the principles of Institute Vision, Mission, Program outcomes and Program Educational Objectives. The IQAC prepares the Strategic Plan and accordingly sent it to College Development Committee (CDC) for more deliberations and then it is forwarded to Governing Council for Approval.

Table 2.1.1.4 Strategic Plan Activities and Timelines

Strategic Area	Strategic Intent	Timeline
Academic	The Institutes mission is to deliver leadership & analytical skills that equip students for the industry. Its objective is to nurture business leaders and entrepreneurs who can merge academic insights with practical business applications. To realize this aim, the Institute will: 1. Continuously refine its academic programs through the Value added courses 2. Regularly engage prominent corporate leaders, alumni, and entrepreneurs to enhance knowledge 3. Channelize Institute Innovation Council Cell (IIC) to promote entrepreneurship 4. Collaborate with suitable academic institutions to broaden knowledge 5. Provide innovative learning resources integrated with technology to support learning anytime.	2025-26
Research	The Institute aims to enhance its research capabilities through: 1. Publishing research-oriented articles in well-regarded indexed journals 2. Motivating faculty to participate in national and international research conferences 3. Motivating & mentoring students to write research article in peer reviewed journals 4. Hosting an national research conferences	2025-26
Quality Certifications	Securing ISO Certification and Maintaining ISO Standards and Certification 1. ISO 50001:2018 Energy Management System 2. ISO 14001:2015 Environment Management System 3. ISO 9001:2015 Quality Management System	2026-27
Value Added Courses	Value-added certification courses (Analytics, FinTech, Digital Marketing, ESG)	2026-27
Industry Connect	The Institute plans to improve industry link for the following reasons: 1. Improving placement performance 2. Industry insights that are current and relevant	2026-27
Accreditation	To ensure that the institute is NBA accredited	2026-27
Collaborations	Create academic partnerships at the national and international levels for training, consulting, research, publications, and exchange programs.	2027-28
Autonomy	Following NAAC & NBA accreditation, the Institute hopes to achieve "Autonomous" status. Under UGC, the institution will have the freedom to develop its own courses and curriculum. The institute intends to become autonomous upon accreditation.	2029-30

2.1.2. Faculty Empowerment (15)

Total Mark

2.1.2.1. Faculty development policies (5)

Institute

3.

The Institute provides a supportive and encouraging environment for faculty development and academic advancement. Faculty members are motivated to pursue higher qualifications such as Ph.D., FDPs, Workshops, etc. Two faculty members have completed their Ph.D. during service, while one is currently pursuing doctoral studies. The Institute extends support through study leave for research-related activities, and eligible benefits are granted upon successful completion in accordance with AICTE and UGC norms.

- o Faculty members are encouraged to participate in FDPs organized by AICTE, universities, and other agencies to enhance their academic knowledge, skills, and professional growth.
- o The Institute regularly conducts faculty development programs covering areas such as research, academic writing, case study preparation, stress management, diet and nutrition, female health and hygiene, and the effective use of ICT and digital resources, often in collaboration with external experts and agencies.
- o Additionally, faculty members are encouraged to participate in national and international conferences and seminars organized by other academic institutions.
- o Faculty members are extended invitations to participate in various programs hosted by institutions such as Association of Indian Management Schools (AIMS), Indian Commerce Association (ICA) and Indian Accounting Association (IAA).
- o Faculty members have been encouraged to register for numerous online courses available through platforms such as AICTE's Swayam NPTEL, A UHV & PMMMTTP, etc.
- o Significant faculty engagement is guaranteed when collaborating with institutional stakeholders such as the University, recruiters, sponsors, and other partners, aiming to expand their academic vision and perspectives.
- o Faculty members are encouraged to engage with industries and institutions as trainers, subject matter experts, consultants, and in other capacities.
- o An annual formal appraisal process is conducted wherein faculty members receive guidance on an individual basis, facilitating self-evaluation and corrective actions if necessary.
- o Provisions regarding Research, Management Development Programs (MDPs), and Consulting have been developed to promote high-quality research and foster interaction with industries. Faculty members are motivated to publish in reputable indexed journals.

2.1.2.2. Decentralization, delegation of power and Collective decision making (10)

Institute

8.

The Institute follows a **decentralized governance model** to ensure efficient academic and administrative functioning. Powers and responsibilities are delegated to HODs of Departments, coordinators, and committees, enabling smooth execution of programs and initiatives. Decision-making is **participative and collective**, involving faculty members, administrative staff, and other stakeholders, fostering accountability, transparency, and ownership in institutional planning and operations.

Table 2.1.2.2 Decentralization, delegation of power and Collective decision

Sr	Name of the Faculty	Responsibility	Delegation/ Authority	Financial Powers
1	Dr. Samadhan Khamkar	Director In charge of Admissions and Statutory compliances	Delegates operational, academic, and administrative tasks to HoDs, coordinators, and committees	25000/-
2	Dr. Sudhakar Iyer	HOD(MMS) Academic planning, faculty coordination, student mentoring, monitoring CO/PO attainment.	Delegates routine teaching, evaluation, and project guidance to faculty members.	10000/-
3	Dr. Girish B. Pawar	IQAC Coordinator Quality assurance, OBE implementation, data collection, stakeholder feedback	Delegates data compilation, analysis, and reporting tasks to designated faculty/staff	10000/-
4	Dr. Apeksha Gaje	NBA – NAAC Coordinator Planning, implementing, and monitoring quality assurance and accreditation activities.	Data collection, evidence compilation, and report preparation, Delegate tasks to faculty members, department coordinators, and administrative staff.	10000/-
5	Mr. Sharique Momin	Examination Coordinator Conduct of internal and end-term exams, result processing, grievance handling	Delegates invigilation, assessment, and record-keeping tasks to supporting staff	-
6	Mr. Sanjay kumar Singh	Placement Officer Industry interaction, internship coordination, placement drives	Delegates training sessions, resume collection, and student follow-ups to support staff	-
7	Ms. Ekta Thakkar	Library In-Charge Management of learning resources, e-library, journals, and digital databases	Delegates day-to-day cataloging, issue/return, and resource maintenance to library staff	-
8	Mr. Jagdish Chitte	Registrar Maintenance of infrastructure, office management, student services	Delegates specific tasks to clerical and support staff under supervision	5000/-
9	Dr. Sudhakar Iyer	Marketing Specialization Coordinator	-Plan and coordinate specialization-specific courses and academic activities	-Delegates course delivery, assignments, project supervision, and internal assessment tasks to faculty members of the specialization;
10	Mr. Amit Singh	Finance Specialization Coordinator	-Monitor attainment of COs and POs for all subjects in the specialization	-Coordinates with IQAC and Program Coordinator for data collection and reporting
11	Mr. Sharique Momin	HR Specialization Coordinator	-Mentor students and guide faculty in curriculum delivery	
12	Dr. Apeksha Gaje	IT Specialization Coordinator	-Coordinate specialization-based projects, workshops, and seminars	
13	Ms. Sarita Bhogare	Operations Specialization Coordinator		

Outlined below are the key aspects of decentralization and delegation of authority, which also support collaborative decision-making:

- Institutional processes are conducted by various committees with clearly defined roles and responsibilities.
- These committees, chaired by the Director in an ex officio capacity, are convened by designated senior faculty members.

- The committees encompass statutory functions such as Admission, Examination, Attendance, Discipline, Prevention of Unfair Means, Student Council, Affiliation, Grievance Redressal, SC-ST Committee, Anti-Ragging, Prevention of Sexual Harassment, etc.
- In addition to statutory committees outlined by university guidelines, non-statutory committees are established for institutional activities like placement, entrepreneurship development, library, utilization of ICT, branding
- Committees are also formed to coordinate events such as seminars, workshops, conclaves, CSR initiatives, and study tours. Each committee is delegated authority to plan its activities and submit proposed plans and bud the Director for approval by the management following due consideration.
- Decision-making on most issues is collective, ensuring the participation of all members. Final decisions on most matters are made by the Institutes Director in consultation with the Chairman.
- **For issues having Financial Implications the following steps are followed:**
 - An Internal Note (Budget note) is prepared either by the Faculty Member clearly indicating the purpose of the requirement.
 - It is further recommended by the Director, Registrar.
 - The final approval is obtained from the Managing Trustee of the Trust

The various committees currently functional in the institute are as listed herewith –

A. Statutory Committee

1. Name of the Committee: Board of Governors

Table 2.1.2.2.1 - Board of Governors

Sr.	Member Name	Designation
1	CA Parag Khandekar	Chairman/ Convenor
2	Mrs. Rita Khandekar	Member
3	CA Tejas Khandekar (Trustee)	Member
4	Mr. Prakash R. Patil (Director- Sinhgad Tech Education Soc.)	Member

5	Dr. Rajeev Khedkar (Secretary, Bhagwan Shikshan Prasarak Mandal)	Member
6	Mr. J. K. Tripathi (Director Finance, Ajanta Pharma)	Member
7	Mr. Krishna Parad (University Representative)	
8	Registrar - UoM (Ex-official)	Member
9	Director - DTE (Ex-official)	Member
10	Dr. Samadhan Khamkar (Director-SSCMR)	Member

2. Name of the Committee: CDC Committee

Table 2.1.2.2.2 - CDC Committee

Sr. No.	Member Name	Designation
1	CA Parag Khandekar (Chairman)	Chairman
2	Mrs. Rita Khandekar (Secretary of the Management)	Mgmt. Rep.
3	Dr. Samadhan Khamkar (Director)	Member Sec.
4	Dr Girish Pawar	IQAC
5	Dr. Sudhakar Iyer (Teaching)	Member
6	Dr. Apeksha Gaje (Teaching)	Member
7	Dr. Meetesh Choudhari (Teaching)	Member
8	Mr Sagar Bhanushali (Non Teaching)	Member
9	President -Stud Council	Member
10	Secretary Stud Council	Member
11	Dr. Rajeev Khedkar (Secretary, Bhagwan Shikshan Prasarak Mandal)	Educationist
12	Mr. J. K. Tripathi (Director Finance, Ajanta Pharma)	Industry Member
13	Mr. Sunder Naik	NGO Rep.
14	Management Representative from Research Domain	Member
15	Mr. Jagdish Chitte	Non - Teach Representative

3. Name of the Committee: IQAC Committee

2.1.3. Effective Governance Indicators (15)

Total Mark

2.1.3.1. Grievance redressal mechanism (2)

Institute

2.

The Institute has established Committees dedicated to preventing Ragging and Sexual Harassment. These committees are actively engaged in discouraging any instances of Ragging or Sexual Harassment on campus by thoroughly educating students about the repercussions of such misconduct.

Prominent anti-ragging posters are exhibited throughout the campus, and students are required to sign a declaration regarding their commitment to this cause at the admission process.

Students and employees receive an initial briefing about the institute's policy regarding this matter upon their first interaction, and these guidelines are periodically reinforced thereafter.

Newly enrolled students receive thorough information about the available redressal mechanisms in case of any unfortunate incidents, both for themselves and others.

Additionally, talks are organized as part of our CSR initiatives to raise awareness among students and staff about gender equality and sensitivity.

Gender sensitivity and the importance of maintaining professional behavior with individuals of the opposite sex are integrated into certain subjects such as Effect Business Communication and CSR.

2.1.3.2. Transparency (5)

Institute

4.

1. The institute complies with the standard rules and policies established by the University of Mumbai and other relevant statutory authorities.
2. At the time of appointment, all employees are informed about aspects pertaining to their employment, including terms of employment, promotion policies, leave policies, etc. This information is readily accessible to employees whenever needed.
3. Similarly, students are briefed about all rules and policies governing them at the time of admission and induction. These rules, encompassing academic policies, attendance requirements, and disciplinary guidelines, are provided to them in the prospectus as well as on the institute's website.
4. The Institute maintains transparency in all aspects by prominently displaying all information that stakeholders should be aware of, on its website.

2.1.3.3. Leader and Faculty selection process (5)

Institute

3.

The institute follows the rules and procedures established by the University of Mumbai for filling all Leadership and Faculty positions. The institute meticulously adheres to all procedures for recruitment, selection, placement, promotion, etc., as prescribed by the University of Mumbai. All of these procedures are meticulously documented and subsequently submitted to the University for Approval.

The appointments of the Director and faculty members of the institute have received approval from the University of Mumbai.

The recruitment and selection process for the Director and faculty members of the institute follows these steps:

- Obtaining approval from the Trust for filling vacant posts.
- Seeking approval of the post from the competent authority.
- Drafting the advertisement in accordance with University guidelines.
- Obtaining approval of the advertisement from the University.
- Release of advertisement.
- Constituting a Selection Committee as per University guidelines and instructions.
- Formation of Internal Scrutiny Committee for shortlisting of applications.
- Conducting interviews of candidates by the Selection Committee appointed by the University.
- Submission of documents to the University of selected candidates.
- Receiving approval for the selected candidates from the University of Mumbai.

2.1.3.4. Stability of the academic leaders (3)

Institute

2.

The Institute ensures stability and continuity in academic leadership to maintain consistent academic standards and institutional growth. The **Principal, Heads of Departments, Specialization Heads, and Program Coordinators** are appointed in accordance with University and Management norms. Most academic leaders have served in their roles for **multiple years**, providing institutional memory, effective governance, and sustained implementation of academic and quality initiatives. This stability supports curriculum continuity, outcome-based education (OBE), faculty development, and student success.

Table 2.1.3.4 - Stability of the academic leaders

Sr.	Name of the Director and Tenure
1	Dr. Samadhan Khamkar from 2024 - till date
2	Dr. Anil Dhondiba Matkar (2021 to 2024)
3	Dr. Buhril Ginlianlal (2019 to 2021)
4	Dr. K.C. Pandey (2006 to 2019)

2.2.1.1. Adequacy of budget allocation (15)

Institute

10

The budget allocations made to the MMS Department over the last three years have been adequate and aligned with the academic, administrative, and developmental needs of the programme. The institution consistently provided funds across all key heads, ensuring smooth functioning and continuous enhancement of facilities. Capital Expenditure Adequacy Adequate funds were allotted for infrastructure upgrades, library resources, and IT infrastructure. For example: • Infrastructure allocation ranged between ₹3,20,000 and ₹4,80,000 with actual expenses almost matching the provisions. • Library allocations were sufficient to maintain and update learning resources. • IT infrastructure received consistent support, enabling regular upgrades in the computer lab and software systems. Operational Expenditure Adequacy Operational heads—comprising the major share of the budget—were well provided for: • Salary allocations increased steadily from ₹250,00,000 (2022–23) to ₹285,00,000 (2024–25), reflecting realistic provisioning for staff requirements. • Training & Travel, Research activities, Capacity Development, and other operational • costs were allotted generous amounts that supported academic enrichment, faculty development, and student-focused initiatives. • Capacity development alone received between ₹85,50,000 and ₹106,50,000 demonstrating strong institutional support for quality improvement processes. Overall, the data clearly shows that the institution allocated sufficient financial resources to meet all academic, infrastructural, and developmental needs during the assessment years.	
--	--

2.2.1.2. Utilization of allocated funds (15)

Institute

10

The utilization of funds over the last three years reflects efficient financial management and optimal use of allocated resources. Actual expenditures across most heads remain very close to the budgeted values indicating accurate planning and responsible execution. Capital Expenditure Utilization • Infrastructure, library, and IT expenditure show near-complete utilization each year (e.g., Infrastructure: ₹14,97,991 utilized against a budget of ₹15,00,000 in 2022–23). • Library and IT spending similarly reflect efficient utilization without over-expenditure. Operational Expenditure Utilization • Salary expenditure consistently utilized close to the full allocation—₹249,67,514 (2022–23), ₹273,27,969 (2023–24), and ₹281,91,671.90 (2024–25)—indicating proper and timely disbursement. • Research and academic enrichment activities were actively supported, with spending even exceeding the budget in 2024–25 (₹304,092 utilized against ₹280,000). • Training & Travel funds were extensively used each year, reflecting active faculty and student engagement (e.g., ₹7,031,054 utilized in 2024–25). • Capacity development expenditure shows consistently high utilization, such as ₹10,114,194 used in 2022–23 and ₹86,68,951.06 in 2024–25. • Operational expenditure categories such as cultural events, sports, placements, and alumni relations were also well-utilized and aligned with budgeted provisions. Overall, utilization patterns indicate that the institution judiciously uses its funds, ensuring that planned academic and developmental activities are fully implemented.	
---	--

2.2.1.3. Availability of the audited statements on the institute's website (10)

Institute

8.

The institution maintains complete transparency in its financial operations. The audited financial statements for the last three years—including the approved budgets and actual expenditures for the MMS Department—are made available on the institute's official website. This ensures accountability and provides stakeholders with easy access to accurate financial information.

3 PROGRAM OUTCOMES & COURSE OUTCOMES (100)

Total Marks

3.1 Establish the linkage between the Course Outcomes, the Program Outcomes (POs) and Program Specific Outcomes (20)

Total Marks

a. List the Program Outcome (PO)

POs	Statement
PO1	Apply knowledge of management theories and practices to solve business problems.
PO2	Foster Analytical and critical thinking abilities for data-based decision making.
PO3	Ability to develop Value based Leadership ability.
PO4	Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of business.
PO5	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.

Note: Program may add up to three additional POs.

POs	Statement
PO6	Enter Statement

b. List the Program Specific Outcomes (PSOs), if any

PSOs	Statement
PSO1	Enter Statement

Course-PSO Mapping matrix of all courses in the program

PSO are not defined for this Course

3.2 Course Outcomes (40)

Total Mark:

3.2.1 Describe the assessment tools and processes used to gather the data upon which the evaluation of Course Outcome is based (10)

Institute

8.

The institution adopts a **structured Outcome-Based Education (OBE) framework** for the Master of Management Studies (MMS) programme to evaluate the attainment of Course Outcomes (COs). The assessment tools and processes are aligned with **Program Outcomes (POs)** and **Bloom's Taxonomy**, ensuring development of managerial knowledge, analytical ability, and professional competence.

I. Assessment Tools Used

The assessment of Course Outcomes is carried out using **direct and indirect assessment tools**:

1. Direct Assessment Tools

These tools directly measure students' academic and managerial competencies:

- **Continuous Internal Assessments (CIA):**
 - Class tests and unit tests
- **Assignments & Tutorials:**
- Analytical and application-oriented assignments
- Individual and group presentations
- Research and topic-based seminars
- Summer Internship Project (SIP)
- Live projects and field visits
- Theory examinations conducted by the University of Mumbai
- **Presentations & Seminars:**
- **Projects & Field Work:**
- **University/ Semester End-Semester Examination (SEE):**

Each assessment component is **mapped to specific COs** with defined weightage.

I. Assessment Process for CO Evaluation

1. Definition and Mapping of COs

- Course Outcomes are clearly defined at the beginning of the semester.
- COs are mapped with POs using a CO-PO matrix.

2. Assessment Planning

3. Faculty prepares a **session plan** detailing assessment tools, CO mapping, Bloom's Taxonomy levels, and evaluation criteria.

4. CO-wise marks are collected from internal assessments and university / semester end examinations.

5. CO attainment is calculated based on the **percentage of students scoring $\geq 60\%$** in CO-mapped questions.

6. Internal and external assessment weightage is considered.

7. Attainment levels are categorized as:

- Level 1: $< 60\%$
- Level 2: $61-70\%$
- Level 3: $> 70\%$

8. COs not meeting targets are identified for improvement.

9. Remedial lectures and tutorials

10. Additional case discussions

11. Industry interaction sessions

12. Value-added courses and workshops

13. CO attainment and action-taken reports are reviewed by the **HOD and IQAC**.

14. Data Collection

15. CO Attainment Calculation

16. Analysis and Gap Identification

17. Corrective Actions and Continuous Improvement

18. Review and Documentation

A. Assessment Tools, Mapping Process, Data Collection and CO Attainment

1. Semester End Examinations
2. Continuous Internal Assessment and Class Participation
3. Summer Internship Project (SIP), Seminars and Presentations

B. Mapping of Assessment Tools and Questions to Course Outcomes

1. CO Definition: Each course has clearly defined Course Outcomes aligned with Bloom's Taxonomy.
2. Assessment Design: Every assessment component (test, assignment, case study, project, presentation) is mapped to relevant COs. Question papers and evaluation rubrics specify the COs to be assessed.
3. Use of Rubrics: Structured rubrics with defined performance levels (Excellent, Good, Average, Poor) are used for: Presentations, Projects, Rubrics include parameters such as content understanding, analysis, application, communication, and innovation.

Sample Teaching / Session Plan

**SWAYAM SIDDHI MITRA SANGH'S
COLLEGE OF MANAGEMENT & RESEARCH**

Teaching Plan

Name of the program:	Master of Management Studies (MMS)
Academic Year:	2024-25
Name of the course owner:	Dr Apeksha Gaje Khopkar
Semester:	III
Course name :	Database Management System & Data Warehousing
Course credits :	4
Course Duration :	40
Prerequisites:	Basic understanding of Database Management System Connections with Subjects in the current or Future courses: Will connect conceptual framework to Database Management System, RDBMS, Data Models, OODB, SQL and its application to business.
Learning Objectives (LO)	
LO1	To understand the introduction, Meaning and Definition of Database, Database Environment
LO2	To understand the Data Models : The importance of data models, Basic building
LO3	Understand applications of Database Management System(DBMS)
LO4	To understand the Relational Database Management System(RDBMS)
LO5	To understand the Object-Relational Database Management System(ORDBMS)
LO6	Overview of Structured Query Language and application DBMS to business

Course Outcome(CO)		Bloom's Level	Program Outcome(PO)
CO1	Students will be able to understand the fundamental Concepts and terminology of Database and Database Environment.	Understand	PO1 Apply knowledge of management theories and practices to solve business problems.
CO2	Students will be able to understand the importance of Relational DBMS in the organization with the different DBMS structures.	Understand	PO2 Foster analytical and critical thinking abilities for data-based decision making
CO3	Students will be able to understand and apply SQL commands to extract business information.	Understand	PO3 Ability to develop Value based Leadership ability.
CO4	Students will be able to design databases and tables using RDBMS and Structured Query Language .	Create	PO4 Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of business.
CO5	Students will be able to discuss Emerging trends in DBMS.	Apply	PO5 Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.

CO4: Students will be able to design databases and tables using RDBMS and Structured Query Language. (Create)

Assessment Method: Hands-on Lab Sessions

Bloom's Level Create: Assignment to Create a Database and table entries using SQL

Practical No.01**I.Data Definition Language****1. Create the following tables :****(i) Dept**

Column Name	Data Type	Size	Valid Values
Dept_no	Varchar	4(Primary key)	D001,D001,D003
Dname	Varchar	20(Not NULL)	

ii)Employee

Column Name	Data Type	Size
Empno	Varchar	4(Primary Key)
Ename	Varchar	20(Not null)
Job	Varchar()	10
HireDate	Datetime	
Dept_no	Varchar	4(foreign Key)

```
SQL> create table Dept
2 {
3 Dept_no varchar(4) primary key check(Dept_no IN ('D001','D002','D003')),
4 Dname varchar(20) not null unique
5 ;
```

Table created.

```
SQL> create table Employee
2 {
3 Empno varchar(4) primary key,
4 Ename varchar(20) not null,
5 Job varchar(10),
6 Hiredate date,
7 Dept_no varchar(4) references Dept(Dept_no)
8 ;
```

Table created.

```
SQL> INSERT INTO Dept VALUES('D001','HR');
```

1 row created.

```
SQL> INSERT INTO Dept VALUES('D002','Finance')
1 row created.
```

```
SQL> INSERT INTO Dept VALUES('D003','Marketing');
```

1 row created.

```
SQL> SELECT * FROM Dept;
```

```
DEPT    DNAME
-----
D001    HR
D002    Finance
D003    Marketing
```

```
SQL> INSERT INTO Employee
2 (empno, ename, job, hiredate, DEpt_no)
3 VALUES('E001','Raju','Manager','25-DEC-02','D001');
```

```
SQL> INSERT ALL
2 INTO Employee VALUES('E004','Ekta','Analyst','12-JUN-98','D003')
3 INTO Employee VALUES('E005','Radha','Tester','14-FEB-99','D001')
4 SELECT * FROM dual;
```

2 rows created.

2) Alter table Dept table add a new column Loc with data type as numeric, valid values for the column lie between 1 and 100.

```
SQL> alter table dept
2 add Loc numeric check (Loc between 1 and 100);
```

Table altered.

```
SQL> insert into Dept1 (Loc) values (90) where Dept_no='D001';
1 row created.
```

```
SQL> insert into Dept1 (Loc) values (185) where Dept_no='D002';
1 row created.
```

```
SQL> insert into Dept1 (Loc) values (125) where Dept_no='D003';
1 row created.
```

Assessment Method Presentation

CO5: Students will be able to discuss emerging trends in DBMS. (Apply)

PO Attainment=80% of Direct + 20% Indirect	2.27	2.08	2.20	2.47	2.28						
CO/PO mapping	2.50	2.50	2.25	2.00	2.00						

Gap analysis and suggestions:

Observation of CO Attainment			
CO	Final Attainment (%)	Observation	Attainment Level
CO1	> 60%	Target achieved	3
CO2	> 60%	Target achieved	2
CO3	< 60%	Target not achieved	1
CO4	> 60%	Target achieved	3
CO5	< 60%	Target not achieved	1

Summary Statement:

- CO1, CO2 and CO5 : Students have **successfully achieved the target**, indicating strong understanding and application of these outcomes
- CO3 & CO4: Not achieved suggesting scope for improvement in teaching strategies, additional remedial practice, or focused interventions.

Recommended Strategies

The Course Outcome attainment analysis for the course Customer Relationship Management (CRM) shows that CO1, CO2, and CO4 have achieved the target, with attainment levels of Level 3, Level 2, and Level 3 respectively. This indicates strong student understanding of CRM fundamentals, customer value creation, relationship-building strategies, and application of CRM concepts in organizational contexts.

However, CO3 and CO5 have final attainment below 60%, with Attainment Level 1, indicating that the targets were not achieved. These gaps suggest challenges in advanced CRM applications such as CRM analytics, use of technology-driven CRM tools, customer data interpretation, and strategic decision-making based on customer insights. Assign case studies and simulations focusing on CRM analytics and customer lifecycle management

Conduct remedial and tutorial sessions for analytical and application-oriented topics
 Encourage mini-projects involving customer data analysis and CRM strategy formulation Assignments
 Use continuous assessment techniques such as quizzes, presentations, and role plays

The direct evaluation of students is carried out through a **continuous assessment framework** comprising a combination of **internal assessment and University / Semester End**. The assessment pattern consists of **40 marks continuous internal evaluation and 60 marks for the semester-end examination**. Depending on the nature of the course, an appropriate combination of assessment tools such as tests, assignments, case studies, presentations, practical work, and projects is employed to evaluate students on multiple learning parameters.

For effective evaluation, each course is mapped to **predetermined Course Outcomes (COs)**, which are further mapped to **Program Outcomes (POs)**. At the commencement of each course, faculty members submit a comprehensive **Teaching / Session Plan**, which serves as a structured academic document and includes:

- Course objectives
- Defined Course Outcomes (COs)
- CO–PO correlation mapping
- Detailed session-wise teaching plan
- Assessment plan specifying assessment tools and methodologies
- Recommended reading materials
- Additional tools or methods to be used for teaching and evaluation

3.2.2 Record the attainment of Course Outcomes of all courses with respect to set attainment levels (30)

3.3 Attainment of Program Outcomes and Program Specific Outcomes (40)

Total Mark:

3.3.1 Describe the assessment tools and processes used to gather the data to evaluate and Program Outcomes and Program Specific Outcomes (10)

Institute

7.

The Post Graduate Master of Management Studies (MMS) programme is affiliated to the University of Mumbai and follows a structured **Outcome-Based Education (OBE)** framework for the evaluation of **Program Outcomes (POs)**. The programme is of **two years duration**, spread across **four semesters**, comprising general courses, core courses, specialization courses, and projects including a mandatory **Summer Internship Project (SIP)**.

A. Assessment Framework

The **direct evaluation of students** is carried out through a **continuous assessment system** consisting of **internal assessment and semester-end / University examination**, as per University of Mumbai norms.

- **Internal Assessment:** 40 Marks
- **Semester-End / University Examination:** 60 Marks
- **Semester I & II:**
Semester-end examinations conducted by the institute as per University guidelines
- **Semester III & IV:**
Combination of University examinations and in-house examinations

The **minimum passing criterion** for each course component is **50%**.

The Programme specializations offered are:

- Finance
- Human Resources
- Marketing
- Operations
- Systems

Table 3.3.1: Course Structure

Semester	Common Core subjects	Specialization core subjects	Elective subjects	Projects	Total Subjects
Semester I	5		3		8
Semester II	5		3		8
Semester III	2	5	1	1 SIP	9
Semester IV	1		1	3	5

B. Direct Assessment Tools for PO Evaluation

The following **direct assessment tools** are used to evaluate COs, which are aggregated to assess PO attainment:

- Internal examinations
- Individual assignments
- Group assignments
- Case studies
- Individual presentations
- Group presentations
- Class participation
- Project / Summer Internship Project (SIP)

The **Summer Internship Project (SIP)** is compulsory, evaluated for **100 marks** in Semester III, and contributes significantly to the attainment of POs related to professional competence, application of knowledge, teamwork, and ethical practices.

C. Mapping of Assessment Tools to COs, POs

- Each course has **predefined Course Outcomes (COs)**.
- COs are mapped to **Program Outcomes (POs)** using a **CO-PO mapping matrix**.
- At the beginning of each course, faculty members submit a **Session Plan**, which includes:
 - Course Outcomes
 - CO-PO correlation
 - Teaching plan
 - Assessment plan and assessment tools
 - Evaluation rubrics
 - Recommended reading materials

Each **assessment tool and each component of the assessment** is mapped to relevant COs, and the COs are subsequently mapped to POs.

In the case of **semester-end examinations**, each **question is mapped to specific COs** to enable accurate computation of CO attainment, which is later used for PO attainment.

D. Data Collection and Attainment Calculation

1. Data Collection

- Marks obtained from internal assessments, semester-end / University examinations, SIP, projects, and presentations are collected.
- CO-wise attainment data is extracted based on predefined mappings.

2. CO Attainment Levels

CO attainment levels are calculated based on the percentage of students scoring **≥ 60% marks**, as follows:

- **Attainment Level 1 (Low):**
50% or more but less than 60% of students score $\geq 60\%$
- **Attainment Level 2 (Medium):**
60% or more but less than 70% of students score $\geq 60\%$
- **Attainment Level 3 (High):**
70% or more students score $\geq 60\%$

3. PO Attainment

- PO attainment is derived by aggregating the attainment levels of mapped COs.
- Appropriate weightages are applied based on course contribution.

4.

Table 3.3.2: Program Outcomes

Program Outcome(PO)	
PO1	Apply knowledge of management theories and practices to solve business problems.
PO2	Foster analytical and critical thinking abilities for data-based decision making
PO3	Ability to develop Value based Leadership ability.
PO4	Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of business.
PO5	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.

E. Indirect Assessment Tool

- A **Program Exit Survey** is administered at the end of the programme. Various activities and conducted at the Institute also contribute to PO Attainment.
- The survey captures students' perceptions regarding the achievement of COs, POs
- **20% weightage** is assigned to the Program Exit Survey while computing final PO and attainment.

The MMS Program follows a **structured and systematic process** for recording and monitoring the attainment of **Course Outcomes (COs)** for all courses offered in the program, in alignment with **NBA Outcome-Based Education (OBE) framework**.

Process of CO Attainment Recording**1. Definition of COs**

- Each course has **clearly defined Course Outcomes** aligned with **Program Outcomes (POs)**
- COs are framed using **Bloom's Taxonomy** to ensure measurable learning levels.

2. Assessment Tools Used

CO attainment is measured using **direct and indirect assessment methods**:

- **Internal Assessments (CIA)**: Tests, assignments, case studies, presentations, quizzes
- **University/ Semester End Examinations**
- **Indirect Tools**: Course exit feedback (where applicable)

3. Target Setting

- A benchmark of **60% performance** is set as the target for CO attainment.
- Attainment levels are defined as:
 - **Level 3**: > 70% – Target achieved (High)
 - **Level 2**: 60–70% – Target partially achieved (Moderate)
 - **Level 1**: < 50% – Target not achieved (Low)

4. Computation of CO Attainment

- CO-wise attainment is calculated by mapping questions to COs in CIA and end-semester examinations.
- Weighted averages are used to compute **final CO attainment levels** for each course.

5. Recording and Documentation

- CO attainment data for **all courses** are systematically recorded in:
 - CO attainment sheets
 - Department academic records
 - IQAC/NBA documentation files
- Course-wise CO attainment tables include:
 - Final attainment percentage
 - Observation (target achieved/not achieved)
 - Attainment level (1/2/3)

6. Analysis and Review

- Course-wise **gap analysis** is carried out based on attainment levels.

3.3.2 POs and PSO attainment levels (30)

Institute

25

4 CURRICULUM & LEARNING PROCESS (125)

Total Marks

Non-Autonomous Institution

Total Mark:

4.1 Curriculum (25)

4.1.1 State the process used to identify extent of compliance of the University curriculum for attaining the Program Outcomes (10)

Institute

7.

The AICTE Model Curriculum standards have been taken into account by integrating pertinent new topics into all of the programs specializations. Additionally, adherence to the National Higher Education Qual Framework 2023 (NHEQF 2023) and National Education Policy 2020 (NEP 2020) principles, which place a strong emphasis on developing skills through projects and practical work that outline the goals and outcomes for each topic also been taken into consideration. The revised curriculum has incorporated the opportunity for multiple entry and exit based on NHEQF guidelines.

Accordingly, the University of Mumbai has adopted the pattern of the AICTE syllabus guidelines. Hence, the Institutes, which are affiliated with the University of Mumbai, are obligated to closely follow the curriculum and syllabi established by the university. This responsibility falls under various governing bodies, including syllabus draft committees, the academic council, and the management council, which collaborate to finalize the course curriculum. The comprehensive curriculum document provided by the university not only outlines the predominant vision but also explains the rationale behind any changes and adaptations made.

The revised curriculum places a high focus on quantitative and analytics techniques for aiding the students in comprehending corporate practical knowledge, as well as the patterns and interpretation of massive data through business analytical tools.

The Institute formulates the academic calendar in alignment with the University of Mumbai's calendar and syllabus guidelines. The Director of the Institute shares the curriculum and syllabi with the faculty members. Accordingly, faculty members develop their session and assessment plans aligned to the prescribed syllabi for their respective courses. This session plan is vetted by the Internal Quality Assurance Committee, which may suggest further changes. The faculty members integrate the suggested changes into the plan, which is subsequently finalized and strictly followed during course delivery. During the first session of the course, faculty members provide students with the session plan. Moreover, a copy of the program curriculum and the prescribed syllabi is readily accessible in the Library for students to reference. Moreover, faculty members meticulously adhere to the designated marking patterns and weightages.

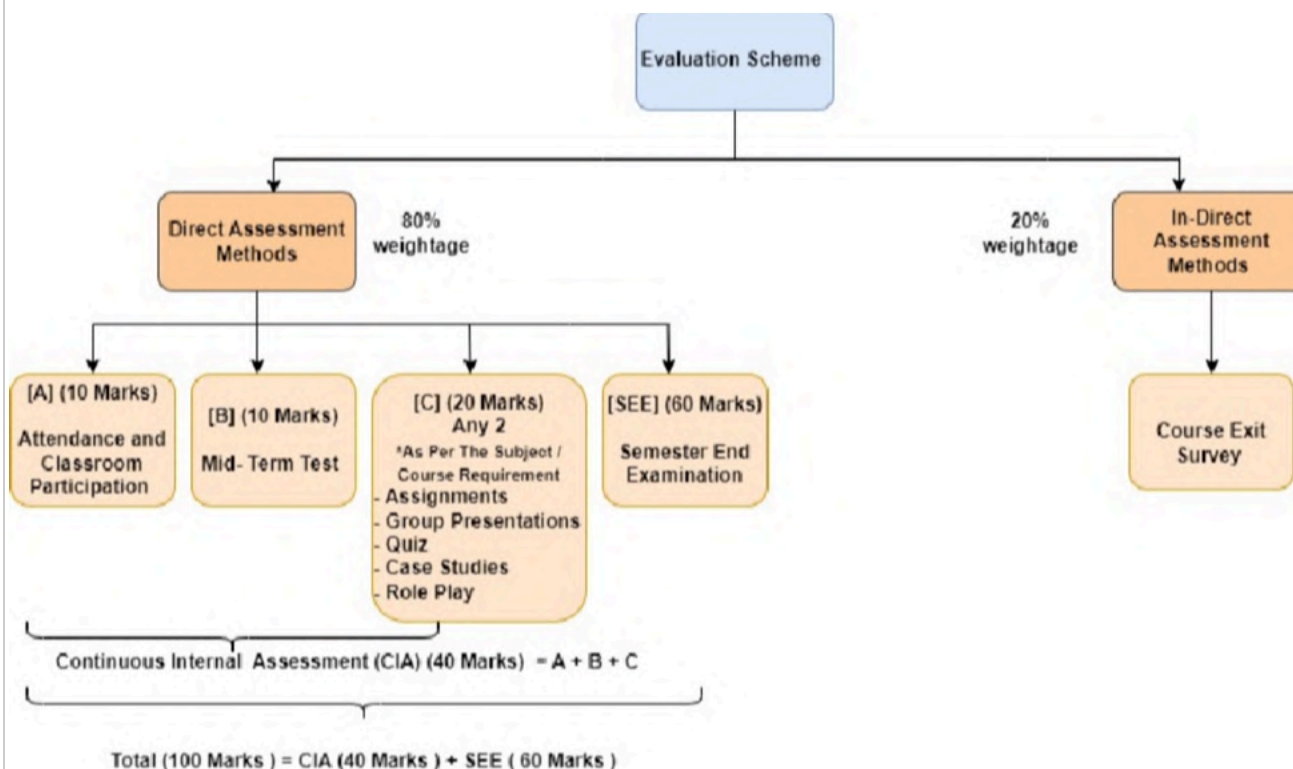

Figure 4.1 Evaluation Scheme for MMS CBCGS Pattern

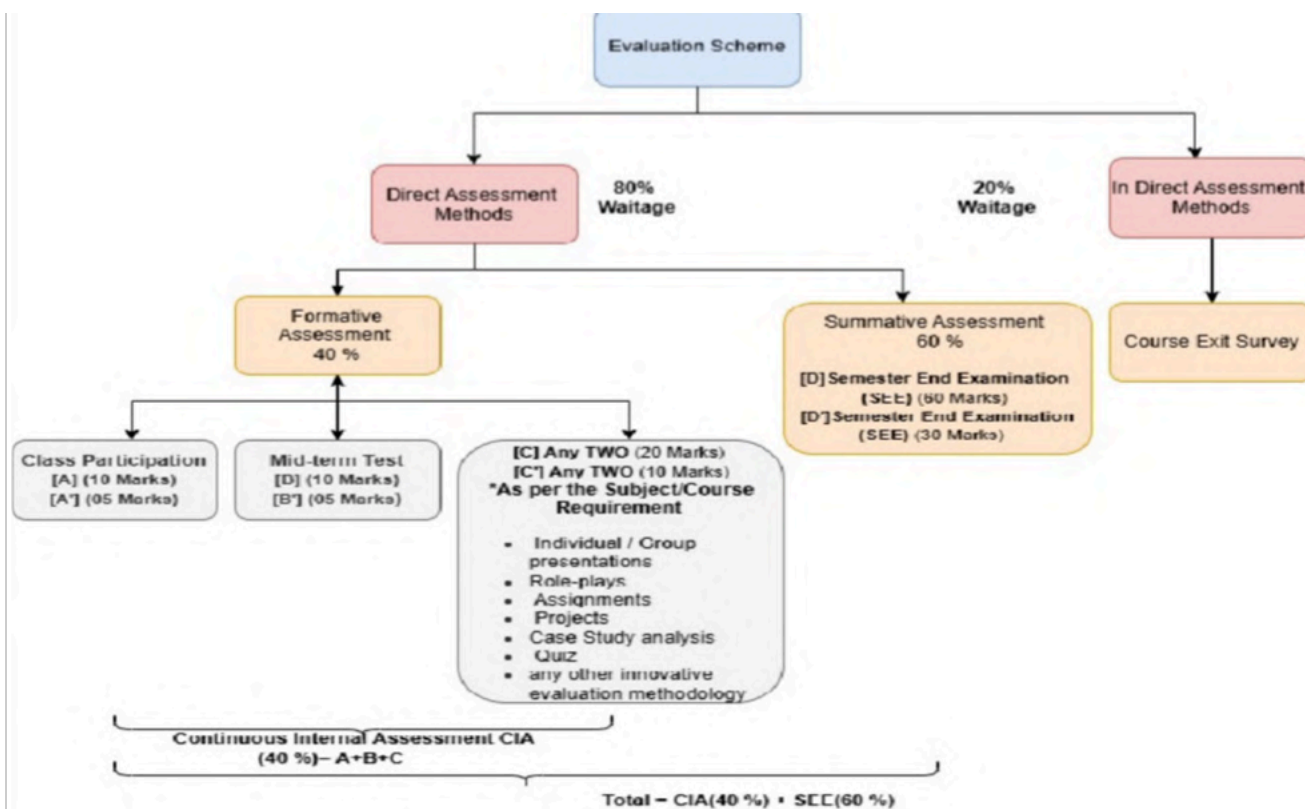

Figure 4.1.2 Evaluation Scheme for MMS NEP-2020 Pattern

The institute offers electives in addition to the core subjects (as prescribed by the university). The selection of Elective courses, complementing the Core curriculum, is made following careful evaluation of recruiters, industry professionals, and fellow academics. This process informs the selection of Elective courses to be offered in each semester.

Table 4.1.1 Electives Offered

For 2024-25 and 2025-26 (NEP)			
Sr.No	Semester	Electives Offered	Reasons for including the course
1	SEM 1	Managerial Communication	To enhance students ability to communicate effectively within organizations and with external stakeholders and also to help students develop skills in written, verbal, and non-verbal communication for improved leadership, decision-making, and team collaboraton.
		Bharatiya Management	To explore traditional Indian management principles and how they can be applied to modern business practices and to foster an understanding of Indian culture, ethics, and values in shaping leadership and organizational behavior.
2	SEM 2	Entrepreneurship Management	To equip students with the knowledge and skills needed to start, manage, and grow successful businesses and to develop an entrepreneurial mindset that includes innovation, risk-taking, and sustainable business practices.
		Cost and Management Accounting	To teach the methods and tools for tracking, analyzing, and controlling costs within an organization and to provide students with the ability to make informed managerial decisions using cost data and financial analysis.

3	SEM 3	Derivatives and Risk Management	To equip students with the understanding of derivative instruments and risk management strategies to minimize financial exposure and optimize returns.
		Security Analysis and Portfolio Management	To teach students how to evaluate securities and construct optimal portfolios to maximize returns while managing risk.
		Commercial Banking	To provide knowledge of the role and operations of commercial banks in the financial system and economy.
		Mutual Funds and Insurance	To familiarize students with the functioning of mutual funds, their role in investment portfolios, and insurance products.
	Finance	Corporate Valuation - M & A	To introduce students to corporate valuation techniques and how mergers and acquisitions affect business value.
	Systems	Software Project Management -	To teach students the principles of managing software projects, including planning, execution, and monitoring.
		Advanced Database & Data Warehousing	To explore advanced database management concepts and the integration of data from multiple sources into data warehouses.
		Big data and Business Analytics	To provide a foundation in big data technologies and how to apply analytics to business decision-making.
		Enterprise Systems for Business (ERP) systems	To introduce students to enterprise resource planning (ERP) systems and their role in streamlining business processes.
		Business Applications of networking and telecommunications	To explore how networking technologies and telecommunications influence business operations and decision-making.
	HRM	Compensation and Benefits	To teach the design, management, and administration of compensation structures and employee benefits.
		HR Planning and Application of Technology	To provide an understanding of human resource planning processes and the use of technology in HR management.
		Learning and Development	To focus on creating effective training programs that enhance employee skills and contribute to organizational growth.
		Global HRM	To examine human resource management practices across different countries and cultures.
		Acquiring and Managing Talent	To provide strategies for attracting, recruiting, and retaining top talent in an organization.
	Operations	Global supply chain management	To explore the complexities of managing global supply chains, logistics, and procurement.
		Purchase and Materials Management	To introduce strategies for efficient procurement and management of materials in a manufacturing or service organization.
		Service Operations Management	To explore the principles of managing service-oriented operations and delivering high-quality customer service.
		Operations Analytics	To provide analytical tools and techniques for optimizing operational efficiency in business settings.
		Quality Management	To focus on concepts and techniques for maintaining and improving product and service quality in business operations.

	Marketing	Sales Management	To teach the principles and practices of managing a sales team and developing effective sales strategies.
		Product Management	To introduce students to the lifecycle of product development, from conception to market launch and beyond.
		Brand Management	To provide insights into building and maintaining strong brand identities and managing brand equity.
		Consumer Buying Behaviour	To explore the psychological, social, and cultural factors that influence consumer purchasing decisions.
		Retail Management	To teach the management of retail operations, including store layout, customer service, inventory control, and marketing strategies.
4	SEM 4	Wealth Management	To equip students with knowledge and skills to manage, grow and protect personal and institutional wealth through structured financial planning.
	Finance	Investment Banking and Alternative Investment Funds	To provide an understanding of capital markets, mergers and acquisitions, private equity, hedge funds and venture capital.
	HR	Strategic Human Resource Management	To develop the ability to align human resource policies with organizational strategy and enable students to manage talent, leadership development and performance for sustainable competitive advantage.
		Organization Development (OD) and Change Management	To help students understand organizational growth, development and transformation processes and to prepare future managers to lead change, manage resistance and build a positive organizational culture.
	Marketing	Global Marketing	To develop skills for designing and implementing marketing strategies in international market and enable students to handle cultural, economic and regulatory differences in global business operations.
		Social Marketing	To apply marketing concepts for promoting social welfare and positive behavioral change and sensitize students towards ethics, sustainability and socially responsible business practices.
	Operations	Operations Strategies	To develop the ability to design efficient and competitive operations systems and to link operational decisions with overall organizational and business strategy.
		Operations Applications and Cases	To provide practical exposure to real-life operations issues through case studies and applications and to strengthen analytical, problem-solving and managerial decision-making skills.
	IT	IoT, Cloud Computing and Virtualization for Business	To introduce students to emerging digital technologies shaping modern organizations and to enable learners to understand how smart systems and cloud platforms enhance business efficiency and innovation.
		IT Governance, Compliance and Cyber Laws	To familiarize students with IT governance frameworks, legal compliance and cyber regulations and to ensure responsible, secure and ethical use of information systems in organizations.

4.1.2 Appropriateness of the gaps identified and actions taken to bridge the gap (15)

Institute

11

IQAC evaluates any additional content or subjects that may not be covered in the standard program curriculum. These supplementary teachings, referred to as Value Added Courses incorporated into the program.

This content helps students address their knowledge gap in understanding the dynamics of the business environment and new technology trends for organizational success.

Table 4.1.2.1 Short Term Courses (STC)

2024-25 Table of STC with Correlation to POs

Sr.no	Name of STC	SEM	Duration	Impact of STC courses based on the Program Outcomes
1	Spoken English and Communication Skills	First	30 hrs	Impact on PO1 (Apply knowledge of management theories and practices to solve business problems) A solid foundation in spoken English enhances the students' ability to communicate management theories and business ideas effectively in both professional and academic settings. This can improve the articulation of solutions to business problems. Impact on PO2 (Foster analytical and critical thinking abilities for data-based decision making): Proficiency in spoken English helps in clear communication of analyses and arguments, aiding in decision-making and enabling more impactful presentations of data-based solutions. Impact on PO3 (Ability to develop Value-based Leadership ability): Effective communication is a core leadership skill. A Spoken English course boosts students confidence in expressing their ideas, values, and vision clearly, which is essential for leadership development. Impact on PO4 (Ability to understand, analyze, and communicate global, economic, legal, and ethical aspects of business): Spoken English skills are crucial for discussing global business dynamics, legal considerations, and ethical practices with a wider audience, whether local or international, across diverse platforms. Impact on PO5 (Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment): Clear communication helps students articulate team goals, contribute ideas, and motivate others, ensuring effective leadership within teams and organizations.

2	Advanced Excel	Second	30 hrs	Impact on PO1 (Apply knowledge of management theories and practices to solve business problems): Advanced Excel skills enable students to apply complex data analysis techniques in solving business problems, such as forecasting, budgeting, or trend analysis, using tools that are widely used in management practices. Impact on PO2 (Foster analytical and critical thinking abilities for data-based decision making): This course strengthens students ability to process and analyze large datasets, thus enhancing their analytical and critical thinking capabilities in data-driven decision-making scenarios. Impact on PO3 (Ability to develop Value-based Leadership ability): Effective use of Excel for financial analysis, performance tracking, or strategic planning empowers students to make data-backed decisions, an important component of value-based leadership. Impact on PO4 (Ability to understand, analyze, and communicate global, economic, legal, and ethical aspects of business): Advanced Excel is vital for analyzing complex business data, such as market trends or financial compliance issues, which are crucial in understanding global, economic, and legal business aspects. Impact on PO5 (Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment): With Advanced Excel skills, students will be able to effectively manage and present data-driven insights to teams and leaders, helping in strategic planning and organizational goal achievement.
---	----------------	--------	--------	---

3	Financial Modelling	Third	30 hrs	Impact on PO1 (Apply knowledge of management theories and practices to solve business problems): Financial modeling helps students apply management theories and concepts to real-world financial scenarios, such as forecasting, valuation, and budgeting. This is essential for solving complex business problems related to financial planning and risk management. Impact on PO2 (Foster analytical and critical thinking abilities for data-based decision making): The course trains students to build and analyze financial models, strengthening their ability to assess investment opportunities, forecast financial outcomes, and evaluate business performance based on quantitative data. Impact on PO3 (Ability to develop Value-based Leadership ability): Financial modeling supports value-based leadership by empowering students to make data-driven decisions that are ethically grounded and aligned with long-term business sustainability. Leaders can use models to drive strategic financial decisions and communicate these to stakeholders effectively. Impact on PO4 (Ability to understand, analyze, and communicate global, economic, legal, and ethical aspects of business): Financial models often involve the analysis of global markets, economic factors, and regulatory considerations. Students will learn to create and interpret models that consider economic conditions, legal frameworks, and ethical financial practices on a global scale. Impact on PO5 (Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment): Financial modeling enhances decision-making within a team environment by providing clear, actionable insights that contribute to achieving organizational financial goals. This skill equips students to lead financial projects or contribute to team-based financial planning effectively.
---	---------------------	-------	--------	--

4	Digital Marketing	Fourth	30 hrs	Impact on PO1 (Apply knowledge of management theories and practices to solve business problems): Digital marketing techniques (SEO, SEM, social media strategies) can be applied to solve business challenges, such as customer acquisition, market penetration, and brand awareness, based on modern management practices. Impact on PO2 (Foster analytical and critical thinking abilities for data-based decision making): Digital marketing relies heavily on data analysis (e.g., customer engagement metrics, conversion rates). The course fosters analytical skills to assess campaign performance and adjust strategies effectively. Impact on PO3 (Ability to develop Value-based Leadership ability): The course provides students with the tools to create value-driven marketing strategies, and leadership in digital marketing requires making ethical, customer-centered decisions that align with organizational values. Impact on PO4 (Ability to understand, analyze, and communicate global, economic, legal, and ethical aspects of business): Digital marketing practices are inherently global, requiring an understanding of international markets, laws (e.g., GDPR), and ethical considerations like privacy, which students will learn to navigate. Impact on PO5 (Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment): In a team setting, students will be able to lead or collaborate on digital marketing campaigns, ensuring the efficient use of resources and achieving organizational goals through digital channels.
---	-------------------	--------	--------	--

The gaps identified in the MMS Program are **appropriate and outcome-oriented**, derived from systematic reviews of OBE attainment, stakeholder feedback, and academic audits. The **corrective actions undertaken are need well-planned, and justifiable**, leading to measurable improvements in program quality, learning effectiveness, and overall stakeholder satisfaction.

Table 4.1.2.2 Identified Gaps and ATR

Identified Gap (MMS Program)	Action Taken	Impact
Limited ICT-enabled teaching in management courses	Smart classrooms & LMS	Improved experiential learning and PO attainment
Inadequate access to management databases	Subscription to e-journals (J-Gate, EBSCO), e- books	Strengthened research, analytical and decision- making skills
Gap in industry- oriented exposure Activities conducted by IIC	Guest lectures, industry visits, & live projects	Enhanced employability and PO relevance
Variation in OBE documentation and attainment calculation	Standardized CO-PO attainment templates and faculty training	To track the progress of the Students and improve the teaching learning process.
Need for advanced computing facilities	Upgraded computer labs with licensed software (plagiarism, Excel, Anti-virus, etc.)	Better analytical skills and hands-on learning
Mentoring support for weak & slow learners	Strengthened mentor-mentee and remedial sessions	Improved student performance and retention
Limited research culture among students	Research methodology workshops , Case Study Writing Workshop, FDP in Generative AI: Unlocking Skills and Career opportunities in Emerging Technologies and project guidance	Improved project quality and research orientation

Apart from imparting education to the students, we also pay special attention to inculcating human values and grooming students for a bright career. Our Institute continuously strives to help students realize their potential while acquiring professional knowledge. We provide the students with career guidance and conduct courses on personality, communication and other such skills. These courses focus on enhancing their personality and on preparing them for their future careers and enhancing their employability.

Table 4.1.2.3 Activities of Placement Committee, E-Cell & IIC

Placement Committee, E-Cell, IIC activities AY 2023-24, 2024-25 & 2025-26		
Sr. No.	Name of Activity	Date
1	Finofy Technologies Virtual Placement Drive	5/12/2023
2	AAJ Enterprises Virtual Placement Drive	17/01/2024

4	Niva Bupa Health Insurance Placement Drive	4/3/2024

5	HDFC Life Insurance Virtual Placement Drive	12/3/2024
6	Guest Lecture on 'Personality Development, Skill Enhancement and Interview Techniques.'	19/03/2024
7	Job Fair organized by SSCMR	30/03/2024
8	Bajaj Finserv 96 Hours Training for MMS students	29/07/2024 to 20/08/2024
9	Session on Accelerators-Incubation-Opportunities for students & Faculties-Early Stage Entrepreneur	3/8/2024
10	Session on Innovation validation - Converting innovation into startup Stage Entrepreneur	10/8/2024
11	Guest Lecture on Interview Skill Techniques	24/09/2024
12	Fulfilling Industry Expectations through Innovation	22/09/2024
13	Guest Session on "Personality development & Women Hygiene"	26/9/2024
14	Guest Session on "Grooming Standards & Interview Preparation"	26/9/2024
15	Job Fair organized by SSCMR	5/9/2024
16	STC on spoken English & communication skills	08/10/2024 & 27/01/2025
17	Guest Session on "Financial Literacy & Commodities Market"	19/10/2024 to 26/10/2024
18	Visit to 'Steel Procurement' Industrial Expo	22/10/2024
19	Guest Lecture 'Success Life and Happiness'	24/10/2024
20	Industrial Visit to IKEA Store Navi Mumbai	7/11/2024
21	Poster Presentation Competition Business Ideas with Recycled Waste	23/11/2024
22	Idea Showcase & Linkage with Innovation Ambassador	25/11/2024
23	Early Stage Entrepreneurs - Entrepreneurship Awareness Programme (EAP)	5/12/2024
24	1 Day hands on Workshop on Javas Spring Framework	9/12/2024
25	Bajaj Allianz Campus Placement Drive	13/01/2025
26	Workshop on Raising Capital and Managing Finance for Startups	15/01/2025
27	Godrej Riviera Off Campus Interview for Internship	25/01/2025
28	(STC) Kona Kona Shiksha	12/2/2025
29	SEBI - An introduction to the world of investment	22/02/2025
30	HR Conclave Meet on 'Overcoming the Skill gaps for better Employability of MBA students.'	15/03/2025
31	ICICI Home Finance Placement Drive	24/03/2025
32	World Creativity and Innovation Day	21/04/2025
33	INTELLECTUAL PROPERTY UTSAV 2025	21/04/2025 to 26/04/2025
34	World Intellectual Property Day	26/04/2025
35	Podcast series - "Rashtra Pratham" and "Celebrating Failures"	11/7/2025
36	A session on Early Stage of Entrepreneur	21/08/2025
37	Job Fair organized by SSCMR	29/09/2025
38	Capgemini Sponsored Employability Training Conducted by Edubridge Learning Ltd.	08/10/2025 to 16/10/2025
39	Campus Placement Drive Organized by Capgemini and Edubridge Learning Ltd.	28/10/2025
40	Hands on workshop on Power BI & AI and 14.0 Tools for Innovators and Entrepreneurs	15/11/2025
41	Hands on Workshop/Boot Camp on Fraud Risk analytics – Problem Solving	16/11/202

The institution conducts quizzes, due to which students remain up-to-date with the knowledge they gained during the regular classes. Class assignment allocation is done by the respective course faculty and assess them. The frequency of class assignments is decided by faculties after evaluation of the assignments.

Industrial visits are conducted once in every semester to make students aware of the external, real- world scenario. Management games and annual fest, "Rupantaran" are conducted to impart creative thinking and le qualities in students. Industrial professionals and veterans are invited to the institution to enlighten students about various subjects and their dynamics. Guest sessions by the experts from the industry and academic st conducted to groom students to become young professionals. A group discussion is a vital part of regular classes and is conducted at regular intervals. The institution arranges remedial classes for slow learning stu clarify their concepts and help them achieve good grades.

4.2 Learning Processes (100)

Total Mark:

4.2.1 Describe Processes followed to improve quality of Teaching & Learning (40)

A. Academic Calendar

Preparation of the Academic Calendar

The teaching–learning process begins as per the **University of Mumbai's academic schedule** following the completion of admissions. The Institute prepares an **Academic Calendar in compliance with university norms**, detailing all academic activities, instructional schedules, examinations, and holidays relevant to Mumbai/Maharashtra.

Program: Master of Management Studies (Batch 2024-2026)

Academic Year 2024-25

Program: Master of Management Studies (Batch 2024-2026)

Academic Calendar **FIRST Year (Semester-I)** (August 2024 to January 2025)

Description of Activities	Time-Period
Submission of Teaching Plans	Latest by 25 th July 2024
Session Commences	16 th September 2024
Last Instruction Day	24 th Dec. 2024
Classes per week/Hours	1 Class per week of 180 Minutes in each course (subject) & each division, total 3 hours per week per course
Number of Weeks/ Hours available against required 60 Hours (15 Weeks) per course (subject) every semester as per University of Mumbai syllabus.	15 Weeks/ 60 Hours available against required 15 weeks /60 hours, including Mid-Term Test as per University of Mumbai curriculum/syllabus
Teachers' Day (5th September) (Birth Anniversary of Dr. Sarvepalli Radhakrishnan)	On 05 th September 2024
Mid-Term Break (Ganpati Festival Vacation)	During 07 th September 2024 to 12 th September 2024 (Both Days Inclusive)
Hindi Diwas (14th September)	During 14 th - 18 th September 2024
Vachan Prerana Diwas (16th October) (Birth Anniversary of Dr. APJ Abdul Kalam)	During 3 rd week of October 2024
Rastriya Ekta Din (31st October) - National Unity Day (Birth Anniversary of Sardar Vallabhbhai Patel)	During Last week of October 2024
Diwali Vacation	During 29 th October 2024 to 02 nd November 2024 (Both Days Inclusive)
Vigilance Awareness Week	During 31 st October to 6 th November 2024

Schedule of Examinations	Time-Period
Mid-Term Test	During Third Week of November 2024
Study Leave before Semester End Examinations	20 th December 2024 to 31 st January 2025 (Both days Inclusive)
Semester End Examinations	During First and Second Week of February 25

Note:

1) The above schedule of the Academic Calendar is tentative. It may be revised based on University of Mumbai's guidelines, or it is subject to change under unavoidable circumstances. If revised, then it shall be communicated in due course of time.

2) Please refer Event Calendar for Guest Lectures, Seminars, Annual Inter-Collegiate Fest "Rupantar", National or International Industry-Visits or Study-Tours, and other Co-curricular activities. Any latest updates about the event/activity will be updated from time to time.

3) For Question Paper Pattern (MMS), kindly refer **Annexure 1**, which is based on the "Scheme of Evaluation" document released by University of Mumbai

Adherence to Academic Calendar

Process of Adherence to Academic Calendar is summarized below-

1. Receipt and dissemination of University Academic Calendar

At the beginning of every academic year, the University of Mumbai notifies the **Academic Calendar** indicating semester commencement, term end, examination schedules, and important academic milestones. U receipt:

- The **Director** circulates the calendar to the **HoD, IQAC, Examination Committee, and Faculty Members**.

The Academic Calendar is reviewed to identify program-specific requirements such as

SIP, project work, presentations, and internal assessments.

2. Preparation of MMS Academic Plan

Based on the University calendar, the college prepares a **Program-level Academic Plan for MMS**, which includes:

- Teaching schedule for each course
- Internal assessment timelines
- Case study, presentation, and assignment schedules
- SIP and project milestones
- Viva-voce and result declaration timelines

This academic plan is prepared by the **HoD** in consultation with faculty and approved by the **Director**.

3. Course Planning and Mapping with Calendar

Each faculty member prepares a **Course Plan** aligned with the academic calendar, including:

- Unit-wise lecture schedule
- Learning outcomes and assessment mapping
- Dates for quizzes, tests, case studies, and presentations

This ensures **uniform pacing of syllabus coverage** and alignment between teaching, assessment, and learning outcomes.

4. Implementation and Monitoring

Adherence to the Academic Calendar is ensured through:

- **Staff meetings** chaired by the **Director**

- **Teaching diaries and lesson plan tracking**

- **Attendance and syllabus completion monitoring**

- **IQAC audits and documentation review**

Any lag in syllabus coverage is immediately corrected through **extra lectures, online sessions, or rescheduled classes**.

5. **Conduct of Continuous Internal Evaluation**

All assessments are conducted as per the academic calendar:

- **Mid-semester tests**

- Assignments and case studies

- Presentations and viva

- SIP and project evaluations

The **Examination Committee** ensures timely evaluation, declaration of results, and submission of internal marks to the University as per deadlines.

6. **Handling Deviations and Contingencies**

In case of disruptions (holidays, university directives, or emergencies):

- **Classes are rescheduled without reducing contact hours**

- **Remedial and extra classes** are arranged

- Online learning platforms are used when required. Thus, academic continuity is maintained.

7. **Review and Continuous Improvement**

At the end of each semester:

- Compliance with the academic calendar is reviewed by the **IQAC and Academic Committee**
- **Committee**
- Student performance, course completion, and feedback are analyzed
- Improvements in scheduling and delivery are incorporated into the next academic plan

Improving Instructional methods and using Pedagogical Initiatives

The teaching and learning process at SSCMR follows conventional mode of teaching along with focus on innovative and effective pedagogical initiatives. It is mandatory for faculty to include multiple tools for teaching and incorporate them in the session rollout plan at the beginning of classroom delivery. Lecture plan showing methodology of teaching is shared with students before the beginning of the semester. Institute has taken various initiatives out of which some are listed on our website. The purpose of using these initiatives is:

- To kindle interest among students
- To encourage out of box thinking
- To provide real life scenario to students
- To share current affairs knowledge and experience
- To facilitate group learning
- To meet global standards of quality education
- To promote application & practical based knowledge

Illustration of Pedagogical Initiatives

Figure 4.2.2 Pedagogical Initiatives

Pedagogical Initiatives – Co-relation with PO

Pedagogical Initiatives	Correlation with Program Outcomes (POs)
1. Case Study Method	PO1 – Applies management theories to real business problems; PO2 – Enhances analytical and critical thinking; PO4 – Encourages understanding of ethical, legal and global business situations
2. Industry Internship / SIP	PO1 – Practical application of management concepts; PO3 – Builds professional values and discipline; PO5 – Develops self-management and workplace leadership
3. Project Work (Research / Industry based)	PO1 – Integrates theory and practice; PO2 – Data-based analysis and interpretation; PO5 – Planning, execution and team-work
4. Classroom Presentations / mini projects	PO3 – Builds confidence and value-based communication; PO4 – Communicates business, legal and ethical issues; PO5 – Leadership through articulation
5. Role Plays & Group Discussions	PO2 – Critical and reflective thinking; PO3 – Ethical sensitivity and interpersonal values; PO5 – Team leadership and collaboration
6. Video movies & Management Games	PO1 – Strategic application of management tools; PO2 – Decision-making using data; PO5 – Leading teams under dynamic situations
7. Guest Lectures by Industry Experts	PO1 – Exposure to contemporary business practices; PO4 – Understanding global, legal and ethical business environment
8. Seminars, Webinars, Workshops & Conferences	PO2 – Research orientation and analytical thinking; PO3 – Professional ethics and lifelong learning
9. Field Visits & Industrial Visits	PO1 – Practical understanding of operations and management; PO4 – Understanding business environment
10. Tutorials, Remedial and Mentoring Sessions	PO5 – Self-management and continuous improvement; PO3 – Professional values and discipline

Sensitizing Students towards Social Responsibility through NGO Collaboration

With the objective of developing socially responsible, empathetic and ethically grounded managers, our college actively collaborates with reputed Non-Governmental Organizations (NGOs) to expose MMS students to real-life issues and community needs.

Through our collaboration with **Sahyog Sanstha**, students are taken to **Anudanit Ashram near Thane**, where they interact with orphans and elderly residents. These visits help students understand the emotional, social and economic challenges faced by marginalized sections of society. By spending time with residents, offering small acts of charity, and engaging in meaningful conversations, students develop compassion, patience and a sense of gratitude. Such experiences leave a lasting impact and help shape their values and attitudes towards inclusive growth and social equity.

In addition, our partnership with **Samarth Bharat Vyaspeeth, Kalwa**, introduces students to environmental responsibility and sustainable practices. This NGO encourages students to collect and donate plastic waste, which is then recycled into useful products. Through this initiative, students become aware of the harmful effects of plastic pollution and the importance of responsible consumption, waste segregation and recycling. It also enables them to understand how social enterprises can combine environmental protection with livelihood generation.

These NGO-led activities help students link management concepts with social realities. They learn that leadership is not only about profit and performance but also about people and the planet. By directly engaging with NGOs and communities, students develop **ethical sensitivity, social awareness and civic responsibility**—qualities that are essential for **value-based leadership**.

Thus, our collaboration with **Sahyog Sanstha** and **Samarth Bharat Vyaspeeth** plays a vital role in nurturing socially conscious managers who are committed to building a more humane, equitable and sustainable society.

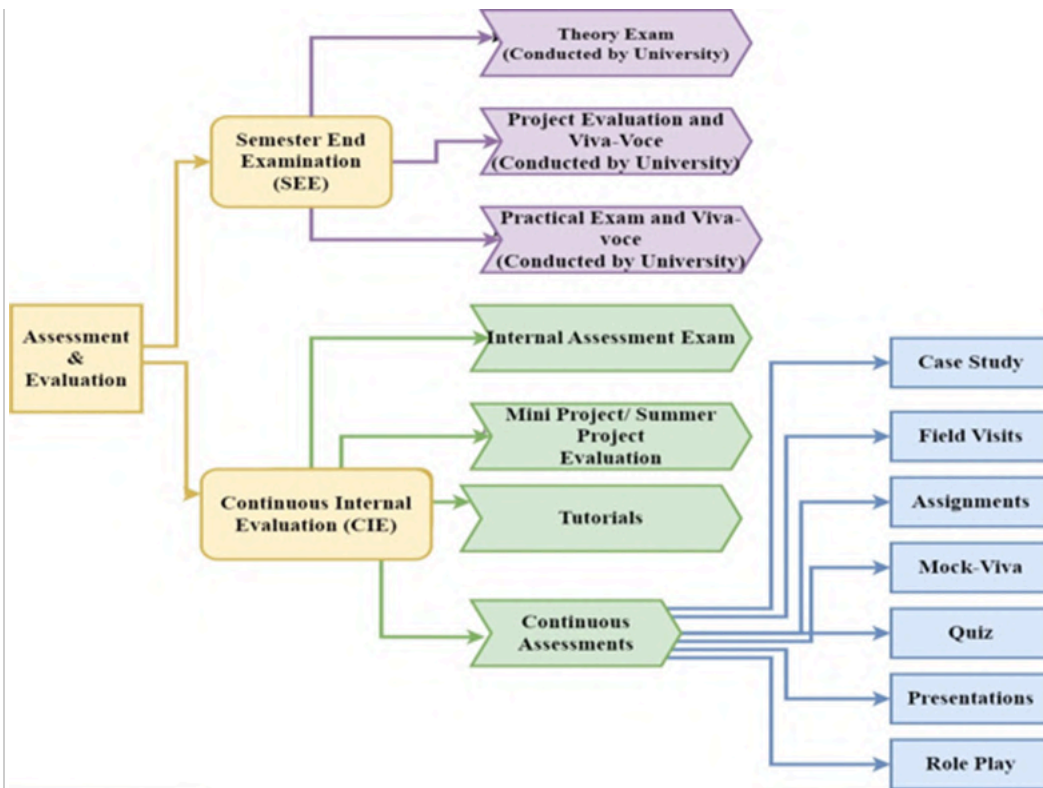

Figure 4.2.2 Assessment and Evaluation Scheme

Methodologies to support weak students & encourage bright students

While the endeavor of every faculty at SSCMR is to ensure that students in the class to the best of their abilities, there are bound to be differences in the caliber of students. Faculty therefore make effort to fathom these special needs of some students and prepare a plan to cater to their needs in ways that does justice for weak and bright students, so that both emerge with expected levels of learning. Following are the details of approach / methodology followed at SSCMR to cater to special needs of the students:

Assisting Weak Students:

As part of the teaching learning process, faculty at SSCMR ensure that every student is given equal opportunity of learning, therefore special attention is given to students who needs additional assistance. Identification and assistance are done in the following manner:

- Careful observation in the class by subject Faculty.
- Class performance and participation in Skill development program.
- Provision of Mid-Test for subjects in which weak students need assistance.
- Counselling through Mentoring groups.
- Appointment of seniors as buddies for these students.
- Providing additional study material / guidance to weak students.

Each subject faculty identifies the weak learners on the basis of mid test results and teaching experience. In such a situation the faculty designs remedial classes, assignments, quizzes, Short Term Certificate course, extra classes help them fare better for final examination. There are also mentors assigned to each student for consultation.

Encouraging Bright Students:

Subject teacher also evaluates the advance learners on the basis of mid-term exam and teaching experience. The concerned faculty facilitates them with advanced case studies and research papers and also guides them to conduct professional courses and research oriented courses. They are given real life problems to solve and increase their talents. These students are also encouraged to participate in inter college fests and can also publish research paper journals.

Along with assistance to weak students, the additional demands of bright students are maintained through initiatives as mentioned below:

- Additional assistance by appointing Industry Mentors for better placement prospects and preparation for such students. These efforts are practiced through mentors' lectures which help to pursue summer internship in their desired organizations and effectively complete summer internship and convert it into final placement.
- Appointment of Alumni as Buddy to guide and assist in improved performance.
- Students are encouraged to participate in competitions that test their mettle and thus add to their performance and confidence.
- Faculty also facilitates them through mentoring with advanced case studies and research papers and also guides them to conduct professional courses.

The faculty follows to keep appropriate records and documents for weak and bright students regularly and take action for the same.

Quality of Classroom Teaching

Faculties conduct the sessions as per timetable prepared by Academic Committee. They adopt various methods of teaching; including lectures, Interactive Teaching, Case Studies & Group Discussion, etc. Some courses are taught through experiential Learning like management games, live visits, simulations, etc. Faculties follow Blooms Taxonomy method in teaching learning process.

While imparting teaching, faculty focuses on interactive based teaching and learning.

Pedagogical tools like case studies, articles, and class activities, help in assisting healthy discussion in classes. Students are encouraged to participate, ask questions and share thoughts, express their views to ensure interaction. F shares real life situations, examples to ensure application-oriented learning. Philosophy of SSCMR approach for classroom delivery focuses on content, communication, and confidence.

SWAYAM SIDDHI MITRA SANGH'S
COLLEGE OF MANAGEMENT AND RESEARCH
REPORT ON LOCAL INDUSTRIAL VISIT TO IKEA: NAVI MUMBAI
7th November 2024

Introduction:

In the world of interior design and home furnishings, there is one name that stands out, offering both quality and affordability – IKEA. Management organized a transformative mini industrial visit to the IKEA store and assembl in Navi Mumbai on 7th November, 2024, for 50 students. Coordinated by Asst. Prof. Sanjay Kumar and associated by Asst. Prof. Sharique Momin, Dr. Sudhakar Iyer and Asst. Prof. Amit Kumar, the event aimed to provide a ho learning experience by immersing students in the dynamic business environment of IKEA. One bus filled with eager students set off on a crisp morning, bound for the enchanting world of IKEA. As they arrived at their destinat

students were welcomed by the iconic blue and yellow façade of the IKEA store. Students not only discovered the inner workings of this Swedish giant but also learned valuable lessons in marketing and business strategy. The experience was just the best with immense learning on floor where massive numbers of product line are displayed. From kitchen décor, room decors, office decors to kitchen decors all wide range of products and innovative products were displayed.

Objectives:

1. **Demonstrate Self-Paced Customization:** Showcase IKEA's digital interfaces for personalized shopping.
2. **Examine TQM Practices:** Investigate Total Quality Management in IKEA's product development, manufacturing, and customer service.
3. **Analyze Integrated Displays:** Evaluate setups to boost cross-selling and enhance customer engagement.
4. **Explore Culinary Marketing:** Examine strategies to enhance the shopping experience and attract customers to the in-store restaurant.
5. **Assess Soft Toy Impact:** Evaluate the role of soft toys in attracting customers, promoting brand engagement, and influencing purchase decisions.

Features of IKEA:

1. **Flat-Packed Efficiency:** IKEA's concept of flat-packed furniture not only saves on shipping costs but also appeals to the eco-conscious consumer. Witnessing the meticulous packaging process, students learned how this method contributes to lower prices and easy transportation.
2. **Innovative Showroom Layout:** IKEA stores are designed like labyrinths that encourage customers to explore and discover products at their own pace. The students observed how the store's layout emphasized the creation of a comfortable and immersive shopping experience.
3. **Sustainable Practices:** IKEA's commitment to sustainability is apparent throughout its operations. From sourcing materials responsibly to energy-efficient stores and even recycling initiatives, students saw how IKEA's talk regarding its environmental responsibility.
4. **Unique Brand Identity:** IKEA's quirky, easy-to-assemble product names and iconic blue bags have become synonymous with the brand. Students noted how IKEA's strong brand identity resonates with consumers worldwide.
5. **Customer-Centric Approach:** Customer feedback is invaluable to IKEA. Students learned that IKEA is keen on understanding its customers and continually improving its offerings based on their preferences and needs.

Learning Outcomes:

1. **Self-Paced Customization:** Learn IKEA's innovative model allowing customers to personalize their experience via computer interfaces.
2. **TQM at IKEA:** Investigate quality assurance in product development, manufacturing, and customer service.
3. **Product Displays:** Evaluate furnished setups for cross-selling and heightened customer engagement.
4. **Culinary Marketing:** Boost shopping experience, attract customers to the in-store restaurant.
5. **Soft Toy Impact:** Assess soft toys' role in drawing customers, engaging the brand, and driving purchases.

In conclusion, the IKEA visit showcased innovative retail practices, emphasizing self-paced shopping, total quality management, integrated displays, culinary marketing, and unique promotions. It highlighted IKEA's commitment to creativity and customer-centricity, setting a benchmark in the retail industry and emphasizing the significance of experiential marketing in establishing a distinctive brand identity.

As the day unfolded, students were not only impressed by the marketing tactics but also inspired by the work culture and values that underpin IKEA's success. They recognized that it's not just about selling furniture; it's about a lifestyle.

By evening, the buses rolled back into the SSCMR campus, filled with students who had not just returned with their shopping bags but with memories and learning's. The industrial visit had opened their eyes to the intricacies of a global brand like IKEA, and they were eager to put their new found knowledge into practice.

Back on campus, students were tasked with writing a reflective report about their personal learning's from the IKEA visit. They eagerly embraced the opportunity to synthesize their observations and insights. Some key takeaways included: **Innovative Marketing, Sustainability Matters, Customer-Centricity and Teamwork and Collaboration.**

Students Feedback of Teaching Learning process and action taken

The Institute has a structured and systematic feedback mechanism through which students provide feedback and suggestions to enhance the teaching-learning process. Student feedback is collected periodically using standardized feedback forms covering various aspects such as course content delivery, teaching methodology, evaluation practices, learning resources, and overall academic experience.

All feedback received from students is **compiled, segregated, and statistically analyzed by the Academic Committee**. The analyzed feedback report, highlighting strengths, concerns, and actionable suggestions, is then **submitted to the Director for review and approval of appropriate corrective and preventive actions**.

FEEDBACK ON STC sessions on KONA KONA SHIKSHA - Financial Education NISM CERTIFICATION PROGRAM

How engaging was the STC sessions on KONA KONA SHIKSHA - Financial Education NISM CERTIFICATION PROGRAM ?

☐ Highly satisfied

☒ Satisfied

☐ Neutral

☐ Dissatisfied

☐ Highly Dissatisfied

Does the arrangement and conduct of the STC sessions on KONA KONA SHIKSHA - Financial Education NISM CERTIFICATION PROGRAM was proper? *

☒ Yes

☐ No

Do you feel that topics covered under STC sessions on KONA KONA SHIKSHA - Financial Education NISM CERTIFICATION PROGRAM were relevant to your learning expectations? *

☒ Yes

☐ No

Does the activities done under STC sessions on KONA KONA SHIKSHA - Financial Education NISM CERTIFICATION PROGRAM clearly explained and timing of activities was appropriate for the content? *

☒ Yes

☐ No

How would you evaluate your overall experience about STC sessions on KONA KONA SHIKSHA - Financial Education NISM CERTIFICATION PROGRAM ? *

☐ Highly satisfied

☒ Satisfied

☐ Neutral

☐ Dissatisfied

☐ Highly Dissatisfied

Do you recommend similar session to be organized by SSCMR in future? *

☒ Yes

☐ No

Please share your suggestions/experience (If any): *

It was a very effective session. I will highly recommend similar sessions in future on topics related to finance.

Students' Feedback Analysis 2024-25

Synopsis:

In the academic year 2024-25 we collected Student's feedback of all the classes of MMS. Students were asked to give their valuable feedback on Syllabus prescribed by the University of Mumbai as well as on administration and resources.

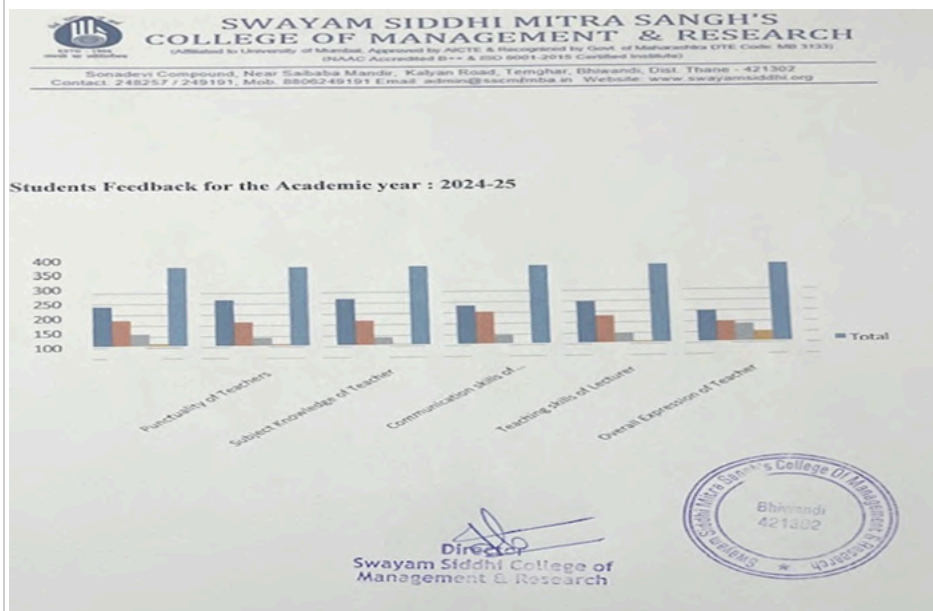

Following was the response of the students for the questionnaire asked:

360 students feedbacks were collected and analysed.

- 51% students responded for 'Excellent' option, 32% students responded for 'Very Good' option, 14% students responded for 'Good' option and 3% students responded for 'Average' option in respect of Regularity of Conducting Lectures, Punctuality of Teachers, Subject Knowledge of Teacher, Communication skills of Teacher, Teaching skills & Technique and Overall Expression of Teachers. Overall, it indicates 95% responses shows the quality and learning value.
- Teachers approach towards students is way of 46% of Friendly, 47% through mentoring process and 7% shows indifferently.
- 95% of the students are satisfied and responded that syllabus is completed in time and are satisfied with teachers in terms of guidance and mentoring.
- 92% of students are happy for teachers' motivation and guidance for participating in extra-curriculum activities, sports and cultural activities.

Analytical Table & Diagram:

Questions	Excellent	Very Good	Good	Average	Total
Regularity of Conducting Lectures	180	117	54	9	360
Punctuality of Teachers	210	108	36	6	360
Subject Knowledge of Teacher	212	112	34	2	360
Communication skills of Teacher	176	146	38	0	360
Teaching skills of Lecturer	190	124	41	5	360
Overall Expression of Teacher	142	93	80	45	360
	1110	700	283	67	2160

The institution employs a combination of **direct and indirect assessment techniques** through **internal assessment and end-term examination** to evaluate student performance effectively. The primary focus of assessment system is to measure students' competencies with respect to the **attainment of Course Outcomes (COs) and Program Outcomes (POs)** in alignment with Outcome-Based Education (OBE) practice:

Process for Internal semester question paper setting, evaluation & effective process implementation

The **internal assessment** comprises **mid-term examinations**, along with **marks for attendance and class participation**, ensuring continuous evaluation of students' academic engagement and learning progress **internal and end-term assessment question papers are designed by mapping each question to the relevant Course Outcome**, thereby ensuring outcome-oriented evaluation.

Faculty members ensure that **all Course Outcomes are adequately and evenly covered** across the mid-term and end-term examinations. The Institute systematically **calculates, analyzes, and monitors CO and attainment levels** using defined attainment methodologies and performance benchmarks.

Question Paper Pattern Mid Term Test
Program: MMS Semester: _____
Name of the Course: _____

Duration: 1 hr. Maximum Marks: 20

Instructions: Attempt any 1 question from Q.1 and Q.2 Attempt any 1 question from Q.3 and Q.4

Please follow the following instructions while framing the question paper.

- Please use appropriate action verbs from Bloom's taxonomy to frame the questions.
- Q.1 and Q.2 should be mapped with the same CO
- Q.3 and Q.4 should be mapped with the same CO
- For COs and Bloom's level refer to the course syllabus & Teaching/ Session Plan

Question Number	Particular	Marks Allotted	Bloom's Level	Course Outcome mapped
1		10		eg. CO1
OR				
2		10		eg. CO1
OR				
3		10		eg. CO2
OR				
4		10		eg. CO2

Note:

- Proofreading of the question paper format is to be done at the senior faculty level. Confidentiality and sanctity of examinations are to be maintained at all levels.
- Kindly hand over the question paper at least **15 days** before the commencement of the Internal Assessment Examinations.
- Total marks will be scaled down to **10 Marks**.

Question Paper Pattern (Semester End Examination)
Program: MMS Semester: _____ Name of the course: _____

Duration: 3 hrs. Maximum Marks: 60

Instructions: Q.1 Compulsory case study (20 Marks)
Q.2 to Q.7 Attempt any 4 (40 Marks)
Please follow the following instructions while framing the question paper.

- Please use appropriate action verbs from Bloom's taxonomy to frame the questions.
- For COs and Bloom's level refer to the course syllabus.
- Please cover all COs and use low to higher-order thinking questions related to Bloom's taxonomy levels.

Question Number	Particular	Marks Allotted	Bloom's Level	Course Outcome mapped
Question 1	(Compulsory) Case Study	20		
	a)	7	< Bloom's Level>	<CO>
	b)	7	< Bloom's Level>	<CO>
	c)	6	< Bloom's Level>	<CO>
OR				
Question 1	(Compulsory) Case Study	20		
	a)	10	< Bloom's Level>	<CO>
	b)	10	< Bloom's Level>	<CO>
Question 2		10		
Question 3		10		
Question 4		10		
Question 5		10		
Question 6		10		
Question 7	Write a short note on: (any two)	10		
	i.	5	< Bloom's Level>	<CO>
	ii.	5	< Bloom's Level>	<CO>
	iii.	5	< Bloom's Level>	<CO>
	iv.	5	< Bloom's Level>	<CO>

Note: Please hand over **three** different sets of question papers, at least **15 days** before the commencement of the end-semester examinations.

- Each set should include a different case study followed by other questions.
- Proofreading of the question paper format is to be done at the senior faculty level. Confidentiality and sanctity of examinations are to be maintained at all levels.

Standard Operating Procedure (SOP) for Attainment Calculation

Step 1: Define Outcomes

- Define **Course Outcomes (COs)** for each course/use prescribed by the UoM in the Syllabus.
- Define **Program Outcomes (POs)** as per NBA guidelines/use POs prescribed by NBA.
- Get CO-PO mapping **approved by IQAC & Head of the Department**.

Step 2: create

- Teaching/ Session Plan
- Assessment Plan
- List of Assignments, Presentations, etc.

Step 3: Identify Assessment Tools Direct Assessment Tools

- Internal Tests (CIA)
- Assignments
- Tutorials
- End Semester Examination (SEE)

Indirect Assessment Tools

- Course Exit Survey
- Alumni Feedback
- Employer Feedback

Step 4: Fix Targets (for your Course) & Attainment Levels as given below

% Target Achieved	Attainment Levels
-------------------	-------------------

50%-59 %	1
60%-69%	2
70 % above	3

Step 5: CO Attainment Calculation

- Calculate CO-wise attainment separately for:
 - Continuous Internal Assessment (CIA)- Weightage 40%
 - End Semester Exam (SEE) - Weightage 60%

Step 6: CO-PO Mapping Weightage

Mapping scale:

- 3 → Strong correlation
- 2 → Medium correlation
- 1 → Low correlation

Step 7: PO Attainment Calculation

$$\text{PO Attainment} = \frac{\sum(\text{CO Attainment} \times \text{CO-PO Mapping})}{\sum(\text{CO-PO Mapping})}$$

Step 7: Indirect Attainment Integration

$$\text{Final PO Attainment} = (\text{Direct} \times 0.8) + (\text{Indirect} \times 0.2)$$

Step 8: Gap Analysis & Action Taken

- Compare the attained value with the target.
- Identify gaps.
- Plan corrective actions:
 - Remedial classes
 - Tutorial sessions
 - Curriculum enrichment
 - Faculty development

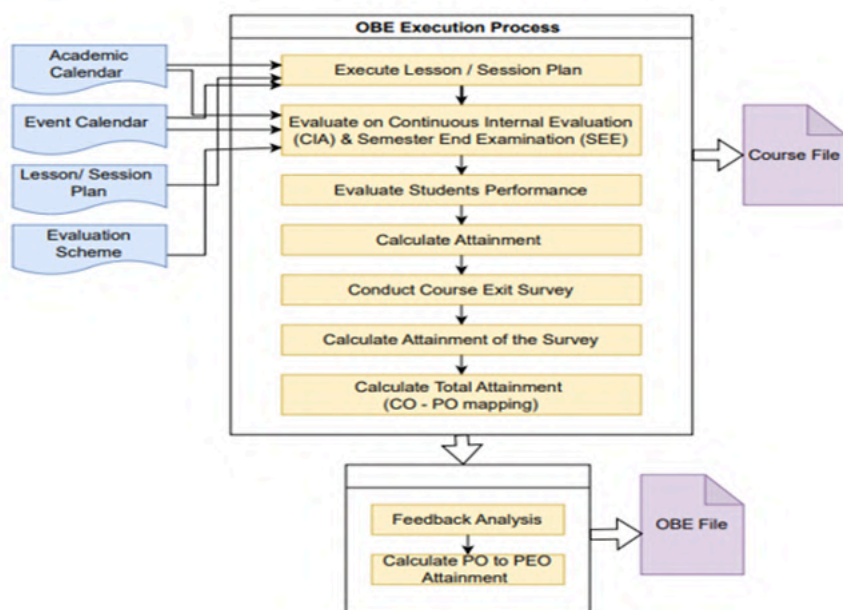

Figure 4.2.4 Continuous Assessment and Attainment (OBE) Process Flow

Attainment Calculation Process**Step 1: Define Course Outcomes (COs) and Map them to Program Outcomes (POs)**

- List all **Course Outcomes (COs)** for the course, as outlined in the Syllabus.
Example: CO1, CO2, CO3, etc.
- Identify relevant **Program Outcomes (POs)** that each CO contributes to.
Example: PO1, PO2, PO3, PO4 & PO5 (as per NBA guidelines).
- Map COs to POs with **Weightage**:
Assign weightage to indicate the strength of correlation:
 - 1 = Low correlation
 - 2 = Moderate correlation
 - 3 = High correlation

Programme Outcomes	Apply knowledge of management theories and practices to solve business problems.	Foster Analytical and critical thinking abilities for data-based decision making.	Ability to develop Value based Leadership ability.	Ability to understand, analyse and communicate global, economic, legal, and ethical aspects of business.	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.
Course outcomes	PO1	PO2	PO3	PO4	PO5
CO1. RECALL the basic terminologies related to the concepts of Business Statistics	2	1	0	1	0
CO2. UNDERSTAND statistics as a crucial tool for data analysis and making justifiable business decisions	2	3	1	2	1
CO3. MAKE USE OF appropriate data to calculate statistical measures for solving business problem	3	3	1	1	1
CO4. ANALYZE the data and draw inferences from statistical findings for various business solutions	3	3	1	2	1
CO5. COMPARE the results of statistical tests for taking informed business decisions	3	3	1	2	1
CO6. DEVELOP a statistical report for a given business situation	3	3	1	2	2
Average	2.67	2.67	0.83	1.67	1.00

Observation of CO Attainment											
CO	Final Attainment (%)	Observation	Attainment Level								
CO1	> 50%	Target achieved	2								
CO2	> 50%	Target achieved	1								
CO3	> 50%	Target achieved	1								
CO4	> 50%	Target achieved	3								
CO5	< 50%	Target Not achieved	1								
Summary Statement:											
- CO1, CO2, CO3 and CO4: Students have successfully achieved the target, indicating strong understanding and application of these outcomes. - CO5: Achieved moderately, suggesting scope for improvement in teaching strategies, additional remedial practice, or focused interventions.											
Recommended Strategies											
- Strengthen concept clarity through tutorials - Encourage independent problem analysis, with higher-order conceptual and analytical ability											

Figure 4.2.12 Gap Analysis

Identification of projects and allocation methodology to Faculty members

As per the students' area of specialization, the Institute facilitates and provides assistance for securing suitable internship opportunities and guides students in identifying project titles aligned with their specialization. Institute ensures that internships and project topics are industry-relevant and academically aligned, enabling students to apply theoretical knowledge to real-world problems.

As per the students' area of specialization, project guides are allotted in an optimal ratio of 20:1 to ensure effective mentoring and personalized guidance. After allocation, each project guide conducts regular meetings with assigned students to orient them regarding project selection, scope definition, research methodology, timelines, and institutional guidelines.

Faculty members provide continuous guidance to students in planning, execution, and documentation of the project work, ensuring adherence to prescribed guidelines, ethical research practices, and appropriate technic procedures. Students are systematically guided in problem identification, literature review, methodology design, implementation, result analysis, and report writing. Periodic reviews are conducted to monitor progress, a constructive feedback is provided to improve the quality, originality, and outcome orientation of the project report. The final viva-voce with power point presentation is assessed by the External examiner appointed by Head Department/Institute along with the mentor. Assessment rubrics are developed and implemented for the evaluation of Summer Internship Projects and Final Year Projects. These rubrics further contribute to indirect and c assessment of Program Outcomes.

Summer Internship (SIP) and Final Project Rubrics

Criteria	Marks	Excellent (A)	Good (B)	Satisfactory (C)	Needs Improvement (D)
1. Project Selection & Relevance		Highly relevant and innovative topic with strong practical value	Relevant topic with clear applicability	Somewhat relevant topic with limited application	Topic lacks clarity or relevance
2. Objectives & Scope		Objectives and scope are clearly defined and well-structured	Clear objectives and scope	Objectives and scope are partially clear	Objectives and scope are vague or missing
3. Research Methodology (Includes literature review, data sources, and tools)		Well-planned methodology with strong literature support and appropriate tools	Adequate methodology and relevant sources	Limited methodology and sources	Poor or unclear methodology and literature
4. Fieldwork & Data Collection		Extensive, well-executed data collection from reliable sources	Good fieldwork with sufficient data	Limited data collection	Incomplete or poorly conducted fieldwork
5. Data Analysis & Report Writing		Detailed analysis with clear interpretation; well-organized report	Good analysis; report is structured	Basic analysis; report lacks clarity	Inaccurate analysis; poorly written report
6. Recommendations & References		Strong and practical recommendations; properly formatted references	Useful recommendations; references mostly complete	General recommendations; references incomplete	Weak recommendations; references missing
7. Discussion of Key Issues (Challenge, Objectives, Scope)		Clearly explains challenges in relation to objectives and scope	Good understanding of key issues	Basic discussion of challenges and scope	Lacks understanding or clarity in discussion
8. Methodology &		Confident and	Adequate	Limited	Incomplete or

Summer Internship (SIP) and Final Project Rubrics

Literature Discussion		accurate explanation	discussion	understanding	unclear discussion
9. Interpretation of Results & Recommendations		Well-interpreted results with justified conclusions	Clear interpretation and suggestions	Basic interpretation; limited justification	Weak or no interpretation
10. Communication & Language		Clear, formal, and error-free language	Mostly clear and formal	Some errors or unclear language	Poor language or presentation

Overall Grade (Based on Total Marks out of 10):

- A (Excellent): 9.0 – 10.0
- B (Good): 7.0 – 8.9
- C (Satisfactory): 5.0 – 6.9
- D (Needs Improvement): Below 5.0

Dr. Sudhakar Iyer

HoD - MMS

Dr. Samadhan K. Khamkar
Director

The assessment results are periodically reviewed, and necessary **corrective and improvement actions** are implemented to enhance teaching-learning effectiveness and overall academic quality.

a) Summer Internship Project (SIP):

Prior to commencing the SIP, students convene with specialization faculties for a briefing session, where faculty members outline the guidelines and expectations for the internship.

- Faculty members distribute documents detailing submission deadlines, reporting formats, and the required contents of the Final SIP report to students.
- Throughout the internship period, students provide progress updates to their faculty mentor, ensuring ongoing communication and oversight.
- Faculty mentors schedule regular meetings with their mentees to provide updates on the status of the summer internship and offer guidance as needed.

b) Research Project:

As part of completion of MMS Program, students in the Semester IV are expected to work on two projects (each project of 4 credit) in areas as follows:

1. Project Report on topic of General Management (4 credits – 100 Marks)
2. Project Report on topic of Social Relevance (4 credits – 100 Marks)

Research projects are vital for advancing knowledge and fostering innovation across various fields. They enhance critical thinking and problem-solving skills, allowing individuals to analyze complex issues and effective solutions. Engaging in research cultivates essential skills such as data analysis, scientific writing, and project management, while also providing opportunities for collaboration and networking with peers experts.

Research projects address societal challenges by generating evidence-based solutions that inform public policy and improve community well-being. Ultimately, they contribute not only to personal growth and employability but also to the collective understanding of pressing issues, making them indispensable in both academic and professional contexts.

Research Project Evaluation and Quality of Report / Dissertation

To ensure academic rigor and quality outcomes, the college follows a structured and systematic process for project initiation, supervision, evaluation and final submission.

The process begins with the formation of a Research Project Committee, which assigns qualified faculty members as supervisors to guide and monitor students throughout the research cycle. Each **student** **ider** a relevant and feasible research topic in consultation with the supervisor, ensuring academic significance and alignment with available resources.

A detailed research proposal is prepared covering the research problem, objectives, methodology, timeline and expected outcomes. The supervisor assists the student in selecting appropriate research methods—quantitative or mixed—based on the nature of the study. A comprehensive review of literature is conducted to identify research gaps, establish theoretical frameworks and avoid duplication. Ethical standards such informed consent and data confidentiality are strictly followed during data collection.

Continuous supervision and progress monitoring form an important quality control mechanism. Students are required to meet their supervisors regularly to discuss progress, clarify doubts and receive feedback. Attendance and continuous performance are recorded by the mentors. Periodic progress reports are submitted, allowing early identification of issues related to data availability, methodology or conceptual clarity. mentoring process helps students refine their work and improve the overall quality of their research.

In the writing and documentation stage, students prepare the project report following prescribed guidelines that include introduction, literature review, methodology, data analysis, results, discussion and conclusion. Drafts are reviewed by the supervisor and students revise their work based on academic feedback. Emphasis is placed on proper referencing and use of recognized citation styles to maintain academic integrity.

The final evaluation consists of submission of the completed project followed by a **viva-voce** conducted by an internal and external panel. Students are assessed on their understanding of the topic, methodology, interpretation and originality of findings. Where necessary, students are asked to incorporate final revisions before submitting the approved version. Selected students are encouraged to publish papers or present their work in conferences, thereby enhancing research culture and visibility.

Concluding Note on Quality:

The overall quality of project reports and dissertations is observed to be largely average, with a few projects being exceptionally good and some below average. This variation is primarily due to the diverse academic backgrounds of students, who come from English, Hindi, Marathi and Urdu medium schools. As a result, differences in language proficiency, expression and academic writing skills are reflected in the final submission even though the research effort and conceptual understanding may be similar.

Process to assess Individual & Team performance

Industry internships and Research projects are key highlights of the MMS program. Students are assigned **team-based projects across all subjects**, which foster **team-building skills, collaborative learning and peer-to-peer knowledge sharing**.

Assessment of teamwork forms an integral part of the evaluation process, with specific marks allotted for group coordination, role clarity, and collective output during subject project execution and presentation.

To ensure **individual accountability**, students are also **evaluated independently** through **questioning during and after PowerPoint presentations**, enabling faculty to assess each student's **conceptual understanding, subject knowledge, and individual contribution** to the team project.

5 STUDENT QUALITY AND PERFORMANCE (100)

Total Marks

Table 5.1 Student Intake

Item	CAY(2025-26)	CAYm1(2024-25)	CAYm2(2023-24)	CAYm3(2022-23)	CAYm4(2021-22)
Approved Intake	210	180	180	180	180

6.5 Faculty Initiatives on Teaching and Learning (15)

Total Marks 10.00

The Institute has consistently encouraged faculty members to adopt innovative, reflective, and student-centric approaches to teaching and learning in order to enhance academic quality and learner engagement. During the academic years 2022–23 to 2025–26, faculty initiatives were oriented towards strengthening conceptual understanding, promoting experiential learning, integrating technology, and aligning academic delivery with industry and societal expectations. These initiatives collectively contributed to improved learning outcomes, employability skills, research orientation, and holistic student development.

Faculty contributions to teaching and learning extend beyond conventional classroom instruction and include pedagogical innovation, ICT-enabled instruction, interdisciplinary integration, experiential and participative learning methods, inclusive classroom practices, and continuous assessment reforms. All significant teaching innovations and academic activities are systematically documented and made accessible through the Institute's official website, ensuring transparency and knowledge sharing.

Recognizing the changing learning preferences of contemporary students, faculty members have consciously shifted the focus of teaching from content delivery to contextual relevance. Students increasingly seek to understand the purpose and applicability of what they learn rather than merely acquiring information. In response, teaching practices emphasize the “why” behind each concept by linking theoretical knowledge in marketing, finance, human resources, information technology, and Operations with real-world applications, career pathways, and professional competencies. Each teaching session is designed to establish relevance at the outset, thereby capturing student attention and enhancing motivation for deeper learning.

To further strengthen engagement, traditional lecture methods have been supplemented with interactive and experiential pedagogies such as role plays, simulations, brainstorming sessions, mock interviews, case discussions, debates, and group activities. Role plays are extensively used in areas such as soft skills development, communication, interviews, presentations, and HR practices, allowing students to experience industry-like situations within the classroom. Through these activities, students gain insights into professional expectations, interpersonal dynamics, and decision-making processes. Brainstorming and analytical discussions are embedded across all specializations, fostering critical thinking, creativity, and problem-solving abilities.

Subject-specific innovations have played a significant role in deepening learning outcomes. In marketing courses, students undertake advertisement dissection exercises wherein they critically evaluate advertisements based on target audience alignment, cost effectiveness, creative appeal,

thematic relevance, and brand positioning. Finance and economics courses incorporate experiential learning through live stock market simulations, investment awareness programs, financial modeling workshops, SEBI-oriented certifications, and practical sessions on taxation, and personal finance. Economics concepts are contextualized through applications to household decision-making, cost-benefit analysis in modern India. Technology-oriented subjects include hands-on workshops on Java Spring Framework, networking fundamentals such as AI-based application development.

A strong emphasis is placed on entrepreneurship, innovation, and startup readiness. Faculty members actively guide students through sessions on Innovation validation, Conversion of ideas into startups, incubation and acceleration opportunities, and Early-stage entrepreneurship. Entrepreneurship Awareness Programs, Idea showcases, Poster presentation competitions using recycled waste, and Innovation ambassador linkages provide students with platforms to conceptualize, design, and present viable business ideas. Workshops on raising capital, managing startup finance, and intellectual property rights, along with celebrations such as Intellectual Property Utsav and World IP Day, sensitize students to the legal and strategic aspects of innovation and enterprise creation.

Faculty capacity building has remained a key priority in sustaining teaching excellence. Faculty members have actively participated in numerous Faculty Development Programs, Short-Term Courses, and Capacity Building Programs focusing on artificial intelligence in education, generative AI, e-content development, research writing, financial modeling, spoken English, and communication skills. National-level programs such as Kona Kona Shiksha, organized by regulatory and professional bodies such as SEBI, have further strengthened financial literacy and investor education expertise among faculty. Many faculty members have served as anchor faculty and resource persons, translating acquired knowledge into classroom practices through blended learning, digital resources, and ICT-enabled assessments.

In addition to teaching, faculty initiatives have significantly contributed to research and academic leadership. Faculty members have published research papers, presented at national and international conferences, served on editorial boards, acted as conference conveners and session chairs, and contributed to patent filings. Enrollment in Ph.D. programs has further strengthened research-led teaching, enabling faculty to integrate contemporary research findings and case studies into curriculum delivery. These scholarly activities enhance academic credibility and promote a culture of inquiry among students.

The Institute also emphasizes holistic and inclusive learning by organizing programs that address personal development, social awareness, and well-being. Sessions on personality development, interview preparedness, communication skills, women's health and hygiene, financial literacy, investment & tax awareness, career planning, yoga, creativity, and wellness complement academic instruction. National initiatives such as the Anemia Mukta Bharat Abhiyan, along with library-based reading and quiz competitions, podcast series, and creativity-focused observances, foster civic responsibility, lifelong learning, and cultural sensitivity.

Continuous student feedback mechanisms are integrated into the teaching-learning process, enabling faculty to identify learning gaps and implement timely improvements. Mock sessions, real-time feedback, and reflective evaluation help track student progress and align instructional strategies with learner needs. Through systematic documentation, peer review, public dissemination, and reflective practice, the Institute ensures that faculty initiatives in teaching and learning contribute meaningfully to academic excellence, student success, and institutional quality enhancement.

1. Description Report of Faculty Initiatives on Teaching and Learning Overview of Faculty Innovations in Teaching–Learning

During the academic years **2022–23 to 2025–26**, the faculty of the Institute undertook a wide range of **innovative, technology-enabled, and experiential teaching–learning initiatives** aimed at enhancing student engagement, conceptual clarity, employability, and research orientation. These initiatives reflect a conscious shift from content-driven instruction to **learner-centric, application-oriented, and outcome-based education**.

Faculty contributions to teaching and learning encompass **pedagogical innovations, ICT integration, experiential learning, assessment reforms, interdisciplinary approaches, inclusive classroom practices, and industry-academia engagement**, all of which significantly contribute to improving student learning outcomes.

Quality Benchmarks and Validation of Teaching Innovations

The faculty initiatives are aligned with clearly defined quality standards and are evaluated based on the following criteria:

- The innovative teaching–learning materials, activities, and outcomes are **uploaded and disseminated through the Institute website** (<https://www.swayamsiddhi.org> (<https://www.swayamsiddhi.org/>)), ensuring transparency and accessibility.
- The practices are **replicable, scalable, and adaptable**, enabling other educators and institutions to adopt and further develop them.
- The Institute has established structured processes for **documentation, review, reflection, and recognition** of faculty contributions, ensuring continuous improvement.

Each initiative is supported by **clear objectives, systematic planning, appropriate pedagogy, measurable outcomes, and reflective analysis**, thereby strengthening the teaching–learning ecosystem.

Shift in Teaching Philosophy: From “What” to “Why”

Contemporary learners increasingly seek relevance and applicability in education. Recognizing this shift, faculty members redesigned their pedagogy to address the fundamental student question—“**Why should I learn this?**” rather than merely “What is taught.”

To enhance attention and motivation, **Marketing, Finance, HR, IT, Economics, and Entrepreneurship concepts** are taught by first highlighting their **real-world applications, career relevance, and industry linkage**. Each lecture begins with contextualization, linking theoretical constructs to **future professional roles and societal needs**.

Experiential and Interactive Teaching Practices

The Institute has moved beyond traditional lecture-based delivery by incorporating **role plays, simulations, brainstorming sessions, case studies, mock interviews, debates, and group activities** within classroom instruction.

- **Role plays** are extensively used in soft skills, communication, HR, marketing, and interview preparation sessions, enabling students to experience real-life professional situations.
- **Brainstorming and analytical discussions** are integrated across all specializations to strengthen critical thinking and decision-making skills.
- **Mock sessions and specialization-based simulations** help students understand industry expectations, receive real-time feedback, and track improvement over successive sessions.

These methods foster **analytical ability, creativity, problem-solving skills, confidence, and professional readiness**, preparing students for diverse career pathways.

Innovative Subject-Specific Practices

Several subject-specific innovations were implemented, including:

- **Advertisement Dissection Activities** in Marketing, where students critically analyze advertisements based on target audience, cost effectiveness, appeal, theme, creativity, and brand positioning.

- **Experiential Learning Modules** in Finance, such as live stock market simulations, investment awareness sessions, financial modeling workshops, and SEBI-certified programs.
- **Application-based Economics**, including microeconomic concepts applied to household decision-making, economic thoughts in modern India, cost–benefit analysis, and real- money value assessment.
- **Technology-driven learning**, including hands-on workshops on Java Spring Framework, AI application development, and automated corporate functions.

Industry Readiness, Entrepreneurship, and Innovation Ecosystem

The Institute places strong emphasis on **entrepreneurship development, innovation validation, and startup readiness**, supported through:

- Sessions on **Innovation Validation, Converting Innovation into Startups, Accelerators and Incubation Opportunities**.
- **Entrepreneurship Awareness Programs (EAP)** and Early-Stage Entrepreneur sessions.
- **Idea Showcase, Poster Presentation Competitions using Recycled Waste**, and linkage with Innovation Ambassadors.
- Workshops on **Raising Capital, Managing Startup Finance**, and **Intellectual Property Rights**, including *Intellectual Property Utsav 2025* and *World IP Day*.

Students actively design brands, develop advertising campaigns, create company profiles, and execute real-world promotional strategies, enhancing creativity and entrepreneurial competence.

Integration of ICT, AI, and E-Content Development

Faculty members actively upgraded their pedagogical competencies through multiple **Faculty Development Programs (FDPs), Short-Term Courses (STCs), and Capacity Building Programs**, including:

- FDPs on **AI in Education, Generative AI, E-Content Development, Research Writing, Financial Modelling, and Spoken English**.
- Capacity Building Programs on **Gen AI for Excellence in Higher Education and Research**.
- Active involvement in **Kona Kona Shiksha (NISM–SEBI)** programs, with faculty serving as anchor and resource persons.

These learnings were translated into classrooms through **blended learning, digital resources, podcasts, online simulations, and ICT-supported assessments**.

Research, Professional Development, and Academic Leadership

Faculty initiatives also extended to **research, academic leadership, and professional engagement**, including:

- **Research paper publications, conference presentations, editorial board memberships, and patents**.
- Participation and leadership roles as **conference conveners, session chairs, panelists for PhD interviews**, and resource persons at national-level programs.
- Enrollment in **Ph.D. programs under the University of Mumbai**, strengthening research- led teaching.
- Development of **case studies** and integration of research findings into classroom instruction.

Holistic and Inclusive Learning Environment

To ensure holistic development, the Institute organized programs on:

- **Personality development, communication skills, interview readiness, women hygiene, financial literacy, investment & tax awareness, career guidance, yoga, creativity, and wellness**.
- National initiatives such as **Anemia Mukta Bharat Abhiyan**, fostering social responsibility.
- Library-based activities, quizzes, reading competitions, and podcast series like *“Rashtra Pratham”* and *“Celebrating Failures”*.

Continuous **student feedback mechanisms** enable immediate improvement and customization of teaching strategies.

6.6 Management Development Programme (5)

Total Marks 3.00

Institute Marks

3.00

In alignment with its institutional quality enhancement framework and commitment to academic–industry collaboration, the Institute organized a **Faculty Development Programme (FDP) on “Enhancing Teaching Excellence Through E-Content” in online mode**. The FDP was aligned with the objectives of **NEP 2020** and focused on enhancing faculty competence in **digital pedagogy, e-content development, technology-enabled instruction, and academic compliance frameworks**.

The FDP addressed key dimensions of contemporary teaching–learning practices, including **MOOC frameworks, AI-supported educational tools, multimedia content creation, Learning Management Systems (LMS), e-documentation, and intellectual property compliance**. Emphasis was placed on designing structured, interactive, and accessible digital content, effective

deployment of LMS for assessment and learner engagement, and adoption of ethical and legal standards in digital content creation. The programme employed a structured methodology integrating conceptual inputs, demonstrations, application-oriented sessions, and reflective engagement.

Outcomes of the FDP reflected improved faculty readiness to design and implement high-quality e-content, enhanced confidence in using digital platforms for blended and online learning, and strengthened alignment of teaching practices with regulatory expectations. The programme contributed to pedagogical innovation, digital capability enhancement, and institutional academic transformation.

To further strengthen internal academic quality, the Institute organized a **two-day Management Development Programme (MDP) for Arthbodh Shares & Investments Private Limited, Pune**. The programme was designed to strengthen professional competencies of finance-sector employees through an integrated approach combining **behavioral skill development and AI-enabled digital practices** relevant to contemporary investment and advisory services.

The MDP adopted an outcome-oriented training design focusing on **managerial effectiveness, technological readiness, and workplace applicability**. Core competency areas included **soft skills for professional effectiveness**—communication, emotional intelligence, leadership adaptability, interpersonal competence, and professional ethics—and **AI-driven digital tools for financial productivity**, encompassing automation, data analytics, and technology-supported decision-making. A blended methodology comprising expert sessions, interactive discussions, case-based inputs, demonstrations, and limited hands-on exposure facilitated contextualized learning. The programme recorded active participation from employees and executives of Arthbodh Shares & Investments Private Limited, reflecting stakeholder relevance and institutional outreach. Outcomes indicated enhanced behavioral effectiveness, improved teamwork and communication, increased digital readiness, and strengthened capacity for data-driven operational efficiency, contributing to organizational capability building and industry alignment.

Collectively, the FDP and MDP represent the Institute’s systematic approach to **capacity building, digital transformation, and continuous quality improvement**. These initiatives support outcome-based education, enhance professional relevance, and promote institutional excellence in alignment with program outcomes, vision, and mission.

6.7 Faculty Performance, Appraisal and Development System (15)

Total Marks 10.00

The Institution has established a structured and transparent Faculty Performance, Appraisal, and Development System aimed at ensuring continuous professional growth, academic excellence, research productivity, and institutional effectiveness. The system aligns faculty development initiatives with institutional goals and national higher education priorities.

Faculty performance is reviewed through a comprehensive appraisal mechanism that considers teaching effectiveness, research output, academic contributions, professional development, industry engagement, and extension activities. Based on appraisal outcomes, faculty members are encouraged and supported to participate in relevant Faculty Development Programmes (FDPs), conferences, workshops, certification programmes, and capacity-building initiatives.

Faculty Development Initiatives Organized and Supported by the Institution

The Institution actively promotes in-house and collaborative development initiatives focusing on emerging domains such as Artificial Intelligence in Education, research methodology, digital pedagogy, financial literacy, and academic leadership. Faculty members have also served as anchor faculty and resource persons in nationally recognized programmes such as *Kona Kona Shiksha* conducted by the National Institute of Securities Markets (NISM), short-term courses under UGC-HRDC and RUSA, and national-level workshops on AI-based application development and e-content creation. These engagements strengthen pedagogical innovation, curriculum enrichment, and industry-academia integration.

Faculty Participation in External Development Programmes Faculty members have actively participated in FDPs and training programmes organized by reputed bodies such as the Maharashtra State Faculty Development Academy (MSFDA), UGC- HRDC, RUSA, SEBI, and other national institutions. Key focus areas include Artificial Intelligence in Education, research writing and publication ethics, quantitative and qualitative research methodology, digital content development, financial markets certification, and emerging trends in management, law, humanities, and social sciences. Participation in international and national conferences has resulted in research paper publications, editorial board memberships, and enhanced academic visibility.

Research, Innovation, and Professional Contributions The appraisal and development system encourages research and innovation through incentives and academic support. Faculty achievements include research paper publications, conference presentations, editorial board memberships, case study development, patent filings, and participation as panelists for PhD research scholar interviews. Faculty members have also received appreciation and recognition for outstanding academic and institutional contributions.

Outcomes and Impact

The Faculty Performance and Development System has led to measurable improvements in teaching quality, adoption of digital and AI-enabled pedagogies, increased research output, enhanced professional competencies, and leadership development. Continuous engagement in FDPs and scholarly activities has fostered a culture of lifelong learning, innovation, and academic **accountability**, thereby contributing significantly to institutional quality enhancement and sustainable academic growth.

Adjunct faculty also includes Industry experts. Provide details of participation and contributions in teaching and learning and /or research by visiting/adjunct/Emeritus faculty etc. for all the assessment years:

Minimum 50 hours per year interaction with adjunct faculty from industry/retired professors etc.

6.9 Academic Research (70)

Total Marks 40.00

The Institute has established a comprehensive and sustainable academic research framework that encourages continuous scholarly engagement among faculty members and students. Research is recognized as a core academic function and is systematically promoted through institutional policies, mentoring mechanisms, and outcome-based integration with teaching-learning processes. The Institute emphasizes both fundamental and applied research, thereby fostering innovation, critical inquiry, and knowledge dissemination.

During the assessment period, faculty members made substantial contributions to academic research through the publication of research papers in reputed national and international journals, including UGC-CARE listed, Scopus-indexed, and peer-reviewed journals with recognized impact factors. Faculty research spans diverse and contemporary domains such as management sciences, finance, economics, higher education reforms, sustainability, artificial intelligence, digital transformation, and social sciences. These research outputs exhibit methodological rigor, analytical depth, originality, and relevance to academic and industry needs.

In addition to journal publications, faculty members have contributed to scholarly literature through the publication of academic books and book chapters with recognized national and international publishers. These publications, supported by valid ISBN/ISSN numbers, enhance the academic resources available to students and researchers and support curriculum enrichment, research-led pedagogy, and interdisciplinary learning. Other research outputs such as conference proceedings and multidisciplinary publications further strengthen the Institute's research profile. The Institute actively promotes student research culture by encouraging students to undertake research studies and present or publish papers under the guidance of faculty mentors. Students from management programs presented research papers at national-level multidisciplinary conferences. Student research themes addressed emerging and socially relevant areas such as taxation trends, economic transformation, AI-enabled smart learning tools, accreditation and ranking frameworks, curriculum innovation for Industry 4.0 and 5.0, higher education mobility in the post-pandemic context, and social impact of sports and policy initiatives. This exposure has significantly enhanced students' research aptitude, analytical skills, academic writing, and scholarly confidence.

A key achievement during the assessment period is that faculty members were awarded with the Ph.D. degree, thereby strengthening the Institute's research competence, academic leadership, and mentoring capacity. The enhanced doctoral qualifications of faculty members have contributed to improved research supervision, higher-quality publications, and effective guidance of student research projects.

Further, the Institute has taken proactive steps to promote innovation and intellectual property creation reflecting the Institute's emphasis on applied research, innovation, and translation of research outcomes into practical and socially relevant solutions. These initiatives encourage faculty to engage in problem-solving research aligned with emerging technological and managerial challenges.

Faculty and student research outputs are systematically integrated into the teaching-learning process through research-based assignments, seminars, case discussions, project work, and curriculum enrichment activities. Continuous institutional support through research encouragement policies, recognition of scholarly contributions, and academic mentoring has resulted in sustained growth in research quality and quantity.

Overall, the Institute demonstrates a balanced and outcome-oriented approach to academic research, encompassing faculty and student publications, scholarly books and chapters, doctoral achievements and patent-driven innovation.

6.12 Faculty as consultant of the industries (10)

Total Marks 5.00

The institute actively engages its faculty members in industry consultancy, professional training, and capacity-building initiatives, thereby fostering sustained industry-academia collaboration and ensuring the practical relevance of academic expertise. Faculty members served as consultants, trainers, and domain experts for Arthbodh Shares Investments Private Limited, Pune, a reputed organization in the financial services sector.

In 2024, faculty members provided structured consultancy and professional training services focusing on financial markets and regulatory frameworks. The consultancy covered mutual fund distribution with SEBI and AMFI regulations, fundamentals of share markets, stock exchange operations, preparation for NISM certification modules, fixed income markets including government securities (G-Secs), yield curve analysis, bonds, and traded fixed-income instruments, along with soft skills development and cyber security and client data privacy practices. The engagement enabled industry personnel to strengthen regulatory compliance, technical proficiency, and professional effectiveness.

Further strengthening this association, the institute organized a two-day Management Development Program (MDP) in July 2025 exclusively for the employees and executives of Arthbodh Shares Investments Private Limited. The online MDP was designed and delivered by faculty members of the institute and focused on two critical dimensions of contemporary professional development: Soft Skills Development and AI-enabled Digital Tools for Finance.

The program emphasized managerial competence, behavioral effectiveness, emotional intelligence, leadership, and professional ethics, alongside practical exposure to artificial intelligence applications, digital productivity tools, automation platforms, data analytics systems, and technology-driven decision-making in finance. The training methodology included expert lectures, interactive discussions, case studies, live demonstrations, hands-on tool exposure, and reflective learning activities, ensuring high participant engagement and experiential learning.

The consultancy and MDP initiatives resulted in measurable improvements in communication skills, teamwork, technological readiness, operational efficiency, and workplace productivity among industry participants. Faculty members benefited from direct industry exposure, which contributed to curriculum enrichment, experiential teaching, case development, and integration of industry practices into classroom instruction.

These sustained consultancy and training engagements demonstrate the institute's commitment to knowledge transfer, professional up skilling, and applied academic contribution, fully aligning with the objectives and intent of Faculty as Consultant to the Industries.

Appendix A: Training program details:

The detailed schedule is as follows:

DATE	MDP TITLE	FOCUS AREA
7 th July 2025	How Soft Skills are Important in Career and Life and How They Can Be Developed	Importance of Soft Skills, Soft Skills in Personal Life & Soft Skills for Career Advancement
12 th July 2025	AI & Digital Tools for Finance Business Productivity	Digital Tools for Business Productivity, Practical Demonstrations & Benefits for Financial Organizations

Dr. Girish Pawar
 AI & Digital Tools for Finance Business Productivity

DEVELOPMENT KNOWLEDGE TRAINING COACHING

Figure 6.12 MDP Creative

The Institute actively encourages faculty members to develop and document teaching case studies as an integral pedagogical tool to strengthen experiential learning and foster higher-order cognitive skills among management students. In alignment with Outcome-Based Education (OBE) principles, faculty-prepared cases are systematically integrated into classroom teaching to promote analytical reasoning, problem-solving ability, decision-making competence, and critical thinking. During the assessment period, faculty members prepared and disseminated contextually relevant and industry-oriented case studies across key functional domains such as Artificial Intelligence applications, healthcare transformation, financial services, leadership, ethics, fraud management, and emerging financial technologies. These cases are designed using real-world organizational scenarios, contemporary business challenges, and data-driven decision contexts, enabling students to bridge the gap between theoretical concepts and managerial practice.

Academic Year 2023–24:

No teaching cases were formally published during this academic year. However, the Institute used this period to sensitize faculty members through internal discussions and academic planning meetings on the importance of case-based pedagogy as a learner-centric teaching strategy.

Academic Year 2024–25:

Significant progress was achieved in this area, with multiple faculty members contributing original teaching cases. The cases addressed contemporary and interdisciplinary themes such as AI-enabled recruitment systems, digital transformation in healthcare, consumer frauds, leadership transition in financial services, and decentralized finance using block chain-based lending protocols. These case studies were used extensively in classroom discussions, group analysis, role plays, and presentations, thereby enhancing students’ ability to critically evaluate complex business situations, identify alternative courses of action, and justify managerial decisions using logical and ethical reasoning.

The diversity of themes and sectors covered ensured multidisciplinary exposure and encouraged students to apply conceptual frameworks, analytical tools, and quantitative reasoning in simulated real-life contexts. Faculty members also incorporated reflective questions and discussion notes to guide structured classroom deliberations, further strengthening learners’ critical inquiry and interpretative skills.

Academic Year 2025–26:

No new teaching cases were published during the current academic year at the time of reporting. However, the Institute has planned to motivate faculty members to convert classroom-tested cases into formally published teaching cases and to encourage collaborative case writing aligned with emerging industry trends.

Overall Impact:

The preparation and use of faculty-developed teaching cases have significantly contributed to enriching the teaching–learning process. Case-based instruction has enhanced student engagement, promoted participative learning, and improved the development of critical thinking, analytical judgment, and problem-solving skills. The Institute remains committed to strengthening this practice by encouraging case writing, publication, and systematic integration of teaching cases across the curriculum in subsequent academic years.

Dr. Girish Pawar is IQAC coordinator and an experienced faculty in the area of Finance. He conducts workshops and training programs in Advance excel and Tally to educational institute and corporate sector.

SSCMR encourages the faculties to participate in various research projects within the institution as well as outside the institution. Dr. Sudhakar Iyer is a pioneer in guiding collaborative research project and Crash course on NET/SET preparation. He provides regular guidance to individual members for research and social work through whatsapp group. He has created a YouTube channel with the name 'Dr. Sudhakar Iyer' where he has uploaded multiple videos related to various topics.

8 INFRASTRUCTURE (75)**Total Marks 58.00****8.1 Classrooms & Learning facilities (25)****Total Marks 20.00**

Swayam Siddhi Mitra Sangh's College of Management & Research, is a first institution in Bhiwandi with Modern infrastructure to support quality teaching-learning process. The institution has adequate number of class rooms equipped with ICT facility. Wi-Fi is available for both the staff and the students in the campus. The computer laboratory is well equipped with required software and data analysis tools. Spreadsheet Tools like Excel, Google sheet, Programming & Statistical Tools like python, Database & Query Tools like MySQL, By Defender etc., In addition, specific software named e-Prashasan is available to facilitate decision support system, financial accounting, forecasting, behavioral analysis etc. Library is well equipped with books, journals, databases. Media center is in place with adequate e-content.

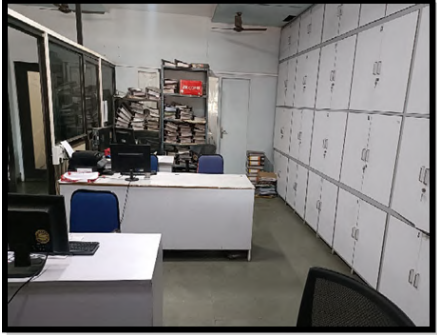

Being an affiliation to University of Mumbai and self-financial source, infrastructure is decided at the institute level and it is in the AICTE norms. The Institute has planned and constructed the infrastructure which facilitates the curricular and co-curricular activities. The institution is centrally equipped with the necessary infrastructure to meet the academic and co-curricular requirements. There are adequate classrooms, seminar hall, tutorial rooms, laboratory and sufficient space for hosting all academic activities.

SSCMR College has a big and spacious Library with huge collection of Textbooks, Reference books and journals. The reading room is well furnished to accommodate 90 students at a time and provides a conducive environment for study. Visitor record is maintained in the Library. New Arrivals of books and journals are displayed on the Notice Board. The library is under CCTV surveillance.

Online resources play an important role in supporting students' learning today. College provides the platforms like **INFLIBNET** which provide access to a wide range of academic journals, e-books, and research databases. College offers **National Digital Library (NDL)** consisting of free study materials, textbooks, and reference content for students of all levels. **SWAYAM** and other **MOOC platforms** provide online courses from reputed institutions, allowing students to learn anytime and anywhere. These resources help our students gain quality knowledge, improve skills, and support self-learning beyond the classroom.

OPAC: The library has developed an Online Public Access Catalogue. The library is computerized with barcode-based issue-and-return process. OPAC helps to search books by Title, Author, and Subjects name, etc.

e-Resources: The library has subscribed to E-Granthalaya Digital Agenda for Library Automation and Networking Software. It has also subscribed DELNET Database and EBSCO Database.

E-Zone:- The Library has an E-Zone facility for students and teachers who desire to do research work. The Library has visitors register book where entries of each of the visitors are recorded.

Procedure for purchase of books: There is a Library committee which approves the staff and students demands for the purchase of new books. Disposal of Old books and Old Newspapers: The Librarian writes an application to the Library Committee for disposal of old Newspapers and weeding out old books.

8.3 IT Infrastructure and Learning Management System (30)

Total Marks 23.00

8.1 IT Infrastructure and Learning Management System (30)

There is a Computer Centre at the institutional level with 1500sq.ft. PCs and Desktops with latest configurations are available. Anti-virus software is also in use. MS office and MS Windows are installed in all systems. Laptops, laser jet printers, scanners are also available in abundance. Internet facility and Wi -fi are available with a speed of **100** mbps. There are 150 desktops, 4 laptops, 6 projectors, 2 LED TVs and 2 audio visual systems for the MMS students.

Table 8.3.1 - IT Infrastructure and Learning Management System

Learning Management System

The institution has implemented a Learning Management System (LMS). The faculties upload Power Point and e-content to the LMS which is available to the students through the mobile app. The LMS has provisions for creating online class and e-content. The software also allows the faculties to create assignments and study materials for the students.

The LMS support student-centric learning beyond the curriculum for MMS course. An online forum is available where the students may discuss various topic related to the curriculum. Faculties can create and share session plans to the same platform. The model question section allows the faculties to upload the model question for the particular course.

LMS has an integrated online MCQ platform. Faculties create question bank with any number of questions and create assessments with multiple question banks. There are provisions to enforce that each student automatically gets the random question paper. For MCQ questions results are automatically calculated.

The LMS also has a module for mentoring. Each mentor can add the mentees and interact with the mentees through the mobile app. The documentation for the interaction is automatically created. A psychometric assessment is available for every student to ensure the mentors are providing right kind of support to their mentees.

There is a module in the LMS that helps the faculties forecast future academic support required for every student. Online courses can be delivered through the software to the student. Each online course can be associated with a quiz.

The usage record of the software by the student is automatically maintained. The faculties can monitor how many students have downloaded the PPT or how many students have completed the online courses. LMS also facilitates tracking of student academic behavior through various data analysis tools. The faculties can monitor.

Learning Management Systems (LMS) streamline attendance tracking, allowing educators to monitor student participation efficiently. By marking attendance digitally, teachers can quickly identify patterns and trends. The system can generate defaulter lists, highlighting students with poor attendance records. This helps educators intervene early and support students who need it. Ultimately, LMS fosters better student engagement and academic performance.

9.2 Involvement of alumni (25)

Total Marks 20.00

The institute actively invites its alumni to motivate and guide students in pursuing higher studies, deliver guest lectures, conduct seminars, and participate in project evaluations. Alumni also serve as judges for various academic and co-curricular events. They play a key role in grooming students by sharing insights on industry expectations from fresh graduates.

Self-employed alumni contribute by organizing workshops and value-addition programs for students. Alumni further support the institute by offering guest lectures, providing feedback on the curriculum when required, and extending industrial guidance as needed. In addition, the Placement Committee maintains a dedicated LinkedIn profile through which students can connect with alumni, interact with them, and seek their guidance and assistance.

1. : Guest Lectures of Alumni students are conducted during the AY: 2025-26

Sr. No	Date	Title of the professional DevelopmentProgram	Resource Person & Company
1	17/ 08/ 2025	Role of MSME in the Economic Development	Mr Dhampal Thorat, PO, MSME Section, GOM

Alumni are regularly invited to participate in various institutional functions as **honorary guests or chief guests**. They actively engage in major events such as the **annual social gathering** and are encouraged to be part of all social and cultural activities organized by the college. The institution has established a dedicated **Alumni Portal**, which is accessible at <https://www.swayamsiddhi.org/alumni> (<https://www.swayamsiddhi.org/alumni>), to facilitate continuous interaction and engagement with former students.

For **SSCMR Institute**, students can also connect with alumni through an official **LinkedIn page**, which serves as a professional networking platform and promotes alumni-student interaction. At the institutional level, an **Alumni Meet is organized once every year**, providing an opportunity for alumni to reconnect with the institute, share experiences, and contribute to institutional development.

Alumni page on website: <https://www.swayamsiddhi.org/alumni> (<https://www.swayamsiddhi.org/alumni>)

Facebook page: <https://www.facebook.com/SSCMR?mibextid=ZbWKwL> (<https://www.facebook.com/SSCMR?mibextid=ZbWKwL>)

WhatsApp Groups are also formed and actively maintained for every batch of SSCMR Alumni.

Alumni Meet Details:

10 CONTINUOUS IMPROVEMENT (50)	Total Marks 36.00
10.1 Actions taken based on the results of evaluation of each of the POs and PSOs (20)	Total Marks 15.00

Outcome-Based Education and Continuous Improvement

SSCMR is committed to continuous improvement of its **MMS programme** through the effective implementation of the **Outcome-Based Education (OBE)** framework. The Institute has initiated this process by defining and systematically evaluating its **Programme Outcomes (POs)** through the continuous assessment and attainment of **Course Outcomes (COs)**.

A structured mechanism has been established for mapping and calculating CO attainment, which forms the basis for determining **Direct PO attainment**. This enables the Institute to identify gaps and implement corrective measures at the course level. Multiple assessment tools, as outlined under **Criteria 3**, are utilized for the calculation of direct PO attainment.

In line with its commitment to continuous improvement and to further strengthen the OBE framework, SSCMR has also initiated the computation of **Indirect PO attainment** through **Course Exit Surveys** and **Graduate Exit Surveys**. The Institute aspires to evolve towards a comprehensive system wherein all academic and co-curricular activities are mapped to Programme Outcomes, and the attainment levels of each activity are measured to assess overall institutional effectiveness.

During the course of the programme, various assessment tools such as **mid-term examinations, assignments, projects, case studies, group presentations**, and other evaluative components are employed to assess student performance and are mapped to the respective COs. Student performance is further evaluated through **end-semester examinations**. In addition, **Course Exit Surveys** and **Graduate Exit Surveys** are conducted to capture students' perceptions regarding the achievement of Programme Outcomes through Course Outcomes.

At the end of each semester and upon completion of the programme, the attainment levels of COs and POs are communicated to the **Internal Quality Assurance Cell (IQAC)**. IQAC undertakes a detailed analysis of CO and PO attainment and submits the findings, along with recommendations, to the **Director** for appropriate action. Recommendations provided by IQAC include **addition, deletion, or modification of course content**, as required, as well as **changes in pedagogy** to enhance the achievement of Course Outcomes and Programme Outcomes.

Observation of CO Attainment						
CO	Financial Accounting For Business	Final Attainment (%)	Observation	Attainment Level	Observation	Suggestions
CO1		< 60%	Target Not achieved	2	CO1 and CO2: Students have not achieved the target , indicating need more understanding and application of these outcomes.	Difficulty in applying accounting standards and preparing final accounts
CO2		< 60%	Target Not achieved	2.0769231		Need more practice and example solving sessions
CO3		> 60%	Target partially achieved	2.0833333		CO3, CO4, and CO5: Achieved moderately , suggesting scope for improvement in teaching strategies, additional remedial practice, or focused interventions.
CO4		> 60%	Target fully achieved	2	Need Remedial Sessions and Increase more tutorial assignments to practice	
CO5		> 60%	Target partially achieved	2		

Observation of CO Attainment					
CO Derivatives and Risk Management	Final Attainment (%)	Observation	Attainment Level	Observation	Action Plan/ Suggestions

CO1	> 60%	Target not achieved	2	CO1, CO3, CO4 and CO5 : Students have successfully achieved the target, indicating strong understanding and application of these outcomes.	Introduce step-by-step problem-solving sessions with increased numerical practice in numerical and analytical questions, Conduct concept-revision and bridge lectures on foundational derivative concepts
CO2	< 60%	Target achieved	1		
CO3	> 60%	Target achieved	2	CO2: Not achieved suggesting scope for improvement in teaching strategies, additional remedial practice, or focused interventions.	
CO4	> 60%	Target achieved	3		
CO5	> 60%	Target achieved	3		

Sr	Program Outcome	2023-24	2024-25	2025-26
1	Apply knowledge of management theories and practices to solve business problems.	2.19	2.23	2.03
2	Foster Analytical and critical thinking abilities for data-based decision making.	2.16	2.23	2.00
3	Ability to develop Value based Leadership ability.	2.17	2.21	2.00
4	Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of business.	2.15	2.23	1.96
5	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.	2.16	2.21	1.99

The above table gives the PO attainment levels for the last three batches that have graduated from the Institute, there has been scope for further improvement, the Institute has initiated many steps in order to further improve the PO attainment levels.

Institute identifies the areas of weaknesses in the program based on the analysis of evaluation of POs attainment levels. Measures identified and implemented to improve POs attainment levels for the assessment years including curriculum intervention, pedagogical initiatives, support system improvements, etc.

The Institute is striving very hard on regular basis for upgrading and improving the overall quality of academics. To achieve this target, assessment for each course is carried out while focusing upon the entire COs and POs and it is represented in the tables given below. Target and PO attainment levels have been taken from Course files and criteria III.

List of the action taken

a. Pedagogical Initiatives

We have shifted from passive learning to active participation to boost PO attainment:

b. Core High-Impact Initiatives

Students engage in several rigorous platforms designed to bridge the gap between theories & industry practice such as

- **Competitive Excellence:** Participation in **KONA-KONA Shiksha Competitions** and **HR Conclaves** fosters critical thinking and industry alignment.
- **Research & Application:** Through **SIP presentations** and **Research Paper Publications**, students dive deep into empirical analysis and data-driven storytelling.
- **National Exposure:** Presenting research papers at national seminar allows students to test their ideas against peer and expert scrutiny.

Impact on Program Outcomes

These initiatives directly enhance key competencies. By defending their research and presenting to industry leaders, students significantly improve their **communication, analytical, and problem-solving POs**, preparing them for the complexities of the global corporate landscape.

NISM Initiative to Enhance Financial Literacy.

HR Conclave –An Initiative to Bridge Industry Academia Gap

SIP Project Presentation to Improve Knowledge & Presentation Skills

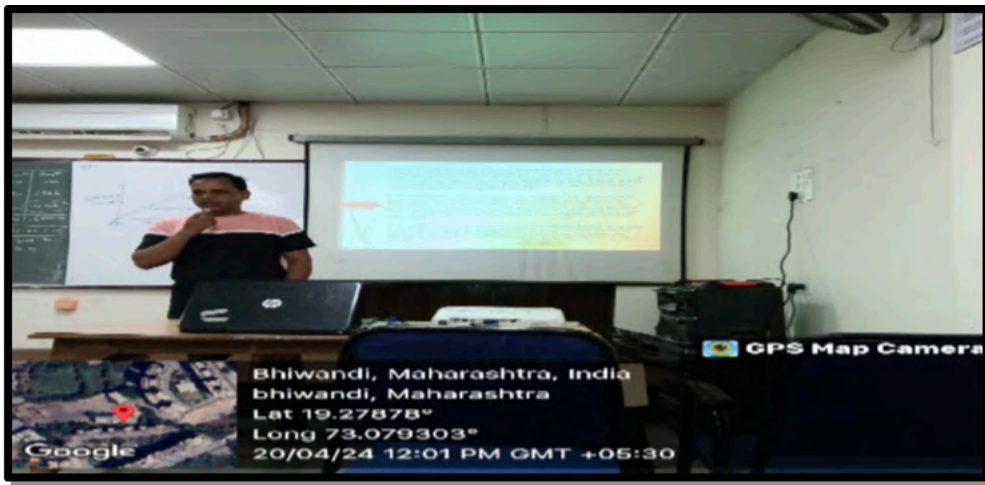

Certificates for research papers published by students during multi disciplinary national level Seminar

Initiative	Primary PO Targeted	Skill Development
KONA Shiksha & HR C	Professionalism & Industry Ethics	Networking, corporate etiquette, and current industry trends
SIP & Case Study Presen	Communication & Application	Public speaking, defense of logic, and applying theory to real-world scenarios.
Research Paper Publicati	Analytical & Problem Solving	Data interpretation, critical inquiry, and evidence-based conclusion.

Experiential Methods: Faculty utilize **Role Plays** methods, **Management Quizzes** for quick recall, and **Group Discussions** to foster leadership and teamwork

- **Flip Classrooms:** Students review foundational material at home/Library and use classroom time for intense problem-solving and peer-to-peer teaching.

Local Industrial Visit Global Valves and Fittings (India) Pvt. Ltd.: ISO 9001: 2015

Group Picture at Metalman Micro Turners, Kullu

Visit to Mumbai Waste Management Limited, Rabale, Navi Mumbai

Industry Visit Report to Global Valves and Fittings, Bhiwandi Taluka Vashere.

Academic audit is conducted by Internal Quality Assurance Cell (IQAC) to ensure quality standards in academics carried out by the expert from outside institution. IQAC committee along with Director from outside institution reviews the academic progress of the program in the light of detailed result analysis, infrastructure and other resources and identifies the gaps therein. These gaps in the courses are then reviewed in the IQAC committee meeting and shared with CDC for suggesting actions to be taken to bridge the same. Academic progress which is reflected through internal and external assessments is taken as a base to identify various academic gaps. The need for extra inputs and pedagogical changes are identified on the basis of CO attainment of each course.

A team of competent professors from other Institute conducts the audit and submits the report to the IQAC. The improvement areas are discussed with the Director and subsequently action plans are formulated. The institute conducted academic audit by appointing an external examiner, the details are:

Table 10.2.1 Academic Audit Report:

Sr. No.	Year	Semester	Resource Person	Remark
1	2025-26	I - IV	Dr. Hiresh Luhar, VIVA Institute of Management Research &	1. Examinations result summary must be s by Director along w the college seal. 2. A standard templat must be developed provided for contin evaluation rubrics t faculty
			Dr. Jayesh Manjrekar, Welingkar Institute of Management	
2	2024-25	I - IV	Dr. Sanoj Kumar, Saket Institute of Management, Kalyan.	ICT based Teaching with blooms technology to be implemented
3	2023-24	I-IV	Dr. Arvind Biradar, MIM Wadala.	Students are encouraged to participate in live project a group project

Action taken based on academic audit recommendations.

- 100 % ICT based teaching and learning methodology with blooms taxonomy has been implemented.
- Faculties are encouraged to adopt student centric methodologies such as group-discussion, case study etc.
- Students are encouraged to participate in live project and group project.
- Students are Encouraged for Research Publication and Subsequently Few Students have Published research papers.
- Students are encouraged to use various data analyses tools and techniques.
- Orientation is given by the faculties to the students for the research methodologies.

10.3 Improvement in Placement, Higher Studies and Entrepreneurship (10)

Total Marks 7.00

Being a premier institution in Bhiwandi the Institute has always observed over 70 percent placement of the students, including students opting for higher education and entrepreneurship. The students who are not placed through the campus are also employed within few months of completing the short term courses. The SSCMR has an active placement cell comprising off in all year student and faculties. The placement cell works towards conducting on campus placements as well as co-ordinates for off campus placement activities. The institution organizes multiple programs towards improvement of employability of the students. Soft skill courses are organized as part of the curriculum. Project work and dissertations are also made part of the curriculum.			
Item	2024-25	2023-24	2022-23
Total Number of students admitted in First of the program(N)	180	180	180
No. of students placed in companies Government Sector(X)	105	152	148
No. of students pursuing Ph.D./ Higher Studies	-	-	2
The institution has ED Cell which supports students with space, infrastructure, financial; legal and HR requirements. The institute also invites eminent speakers from the industry to talk about various aspects of entrepreneurship. Workshops and pep-talks by experts from different sectors are also regularly organized. There is a formal “Alumni Meet- Runanubandh” program where young alumni entrepreneurs are invited to share their experiences. Over the last three academic years, the institute has strengthened its placement mechanism by establishing strong industry linkages, organizing pre-placement training, aptitude development programs, soft-skill workshops, and career guidance sessions. As a result, the average placement performance for the last three graduating batches has shown consistent improvement.			
Item	2024-25	2023-24	2022-23
	Management Stream (M1)	Management Stream (M2)	Management Stream (M3)
No. of students placed:	105	152	148
Median Salary for Placement LPA	3.2	2.94	3.0
Highest Salary LPA	11.71	8.0	9.5

Students are admitted to the course mainly on the basis of the MH-CET conducted by the Maharashtra CET cell, which is under the Directorate of Technical Education, Govt of Maharashtra. The CET is conducted every year and the students are admitted through a Centralised Admission Process (CAP) conducted by the Admissions Regulatory Authority. The number of students securing admission in the institute has been consistently improving over the years.

Table 10.4.1: Details of category-wise CET Scores

2025-26	
CAP Round	Highest CET Score (Percentile)
Open	89.37
SC	77.86
ST	60.28
OBC	72.41
SBC	78.28
2024-25	
CAP Round	Highest CET Score (Percentile)
Open	84.89
SC	89.94
ST	37.49
OBC	79.76
2023-24	
CAP Round	Highest CET Score (Percentile)
Open	87.90
SC	80.42
ST	50.34
